**Subject:** Re: Pioneer Water Company - customer usages

Hi Jim,

I only have 2 customers with 1 inch service. Here they are:

5905 N. Vista Grande  
5821 N. Del Rey

I have also attached the tariff page which includes the block rates for the 1 inch meter size. I apologize for not including that on the first one, I remember talking to you about it.

Let me know if you need anything else.

Thanks again for all of your help!

Judy Taylor

Subject: Pioneer Water Company - customer usages

Ms. Taylor

In review of the monthly data for water customer usage, I am unable to figure out who is a 3/4 inch meter customer and who is a 1 inch meter customer. Is there a way to tell or can you give me a list of who is 1 inch?

Additionally, we will need a new tariff page that list the block rates for the 1 inch meter size. The one that was submitted with the rate filing listed the base charge for both sizes and listed the usage rate blocks for the 3/4 inch, however the 1 inch was left out.

If you can prepare a draft new tariff page and send it to me we can get the tariff up to date and ready for the open meeting.

I have attached a sample from another company see how they did it.

Thank you.
