Subject: Request for DID's

April 20, 2010

Dear Kim,

[Redacted] is requesting a reserved block of 1,100 phone (DID – direct inward dialing) numbers so that we can implement a disaster recovery plan. The goal is to be able to redirect all calls to these DID numbers. They will reside at our Spokane location. These DID numbers will only be used in the event of a service outage in the greater Seattle area!

It is important that all phone numbers have a consistent NAP and LEC code e.g. 509-XXX for consistency and use with our phone system! The only difference ,per phone number, would be the last four digits. Our phone system requires the last four digits of the numbers to start with a 4,5,6,7,8,9.

The Requested again for these numbers will only support [Redacted] during a Disaster recovery event .

Thank you,

[Redacted]
