Re: Longview Rate Center Numbering Waiver

Dear Mr. Danner:

By this letter Qwest is requesting a waiver of the utilization threshold requirements outlined in FCC's Numbering Resource Optimization Orders, FCC 00-429 and FCC 01-362 released in CC Docket No 99-200, which would allow PA/NeuStar, the Number Pooling Administrator, to assign a new thousands block from the Industry Pool that meets the needs of a specific Qwest customer.

The customer request is for 300 sequential telephone numbers in the 360 NPA, Longview Rate Center. Specifically, the customer has requested that the numbers be in a single NXX and that the numbers be in a 5XXX or 6XXX block range due to their existing internal dialing plan. The customer intends to start deploying these numbers upon receipt. The new numbers are needed for expansion. Qwest asks that the WUTC authorize NeuStar to assign one block that would meet the customer's needs from the 360 NPA Longview Rate Center. The 360 NPA is forecasted to exhaust in the third quarter of 2013. There are 58 unassigned NXXs in the 360 NPA, and 34 blocks available in the PA pool inventory for the Longview Rate Center.

The customer will not return any existing telephone numbers as this request is for an expansion at their current location(s). The original customer request has been provided with this letter as Confidential Attachment A.

In our effort to satisfy the customer's request, Qwest submitted a request to PA/NeuStar on May 13, 2010 for additional numbering resources. That application and the subsequent denial have been provided as Confidential Attachment B. In order for the request to be approved, Qwest will require a waiver of the current usage threshold for new numbering requests.

The FCC allows for a waiver of the rules when there is demonstrated need such as a specific customer request for a large block of numbers. The waiver process is specifically addressed in the FCC Third Report and Order ("Order") as the "safety valve" process (See FCC 01-362, paras. 57-66), which went into effect on March 14, 2002. The Order delegates the authority to hear claims for waivers to the state commissioners and recommends that state commissions act expeditiously. The Order proposes that state commissions review a waiver within 10 business days. (See Paras. 61,66)

Qwest respectfully requests that the Commission approve the request for a waiver of months to exhaust and Rate Center Utilization requirements, and direct PA/NeuStar to assign a 1K thousands block in the 360 NPA Longview Rate Center to accommodate our customer's request.

All directives can be emailed, faxed or mailed directly to:

Kevin Gatchell  
PA Code Administrator  
NeuStar, Inc.
