Re: UT-121027 - Frontier Communications Northwest Inc.'s notification that its intrastate access rates in Tariff WN U-16 are lower than its interstate access rates in response to the Federal Communications Commission's new rules governing the reform of intercarrier compensation mechanisms (including intrastate access charges) that were initially adopted in Order No. FCC 11-161.

Dear Mr. Danner:

Frontier Communications Northwest Inc. submits into Docket No. UT-121027 the supporting documentation for the Company's intrastate access tariff.

The purpose of this filing is to show that the Interstate rates are higher than the Intrastate rates; therefore there are no changes to the Facilities For Intrastate Access Tariff, WN U-16 tariff.

The documents, which contain proprietary rate and demand unit information, is marked and should be considered "Confidential per WAC 480-07-160," as it would have economic value to the Company's current and potential competitors. A redacted, public version is also included.

If you have any questions concerning this filing, please contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Carl Gipson".
