Washington State Utilities and Transportation Commission

Dear Sir or Madam:

We are responding with this letter to ask for leniency in regards to the late return of our annual report. We are a small and newer company receiving a very first annual report from you. We pride ourselves on providing accurate and prompt service to our regulators, however we are just a little new at this and time has past quickly. We are asking for leniency for the fine as a \$1000 penalty would be a considerable financial impact on our small company. We strive to be a company in good standing for both our customers and the WAUTC. Please accept our apologies for this incident and know we will be turning in our report and fees due before June 8<sup>th</sup>, 2015.

Sincerely,

Robert Porrazzo  
Manager of operations
