Event Description

Event Date and Time

August 29, 2015, 01:00 – September 4, 2015. 15:00

Event Type

Wind

Service Areas Significantly Affected

All Service territories were impacted with the most significant impact in North King County and Skagit County

Number of Customers Affected

System wide, approximately 404,693 customers were without power during the course of this event.

Summary of System Impacts

Total Number of Outages	1,003
Distribution Circuits Totally Out	28
Distribution Circuits Partially Out	975
Transmission Circuits Affected	20
Substations Offline	5

Major Event Day – Qualification

IEEE¹ Standard 1366

IEEE Standard 1366 was established to present a set of terms and definitions which can be used to foster uniformity in the development of electric system service reliability indices, to identify factors which affect the indices, and to aid in consistent reporting practices among utilities. Also, it provides guidance for new personnel in the reliability area and tools for internal as well as external comparisons. The Major Event Day definition was created as part of IEEE Standard 1366 to allow for consistent calculation of reliability metrics between utilities and enable more valid comparisons with other utility reliability metrics.

IEEE Major Event Day Calculation (2.5 BETA METHOD)

1. A threshold on daily SAIDI² is computed once a year, following year end
2. Assemble the 5 most recent years of historical values of SAIDI/day
3. Discard any days in the data set that has a SAIDI/day of zero
4. Find the natural logarithm of each value in the data set
5. Compute the average (Alpha) and the standard deviation (Beta) of the natural logarithms computed in step 4
6. Compute the threshold T_{MED} where $T_{MED} = \exp(\text{Alpha} + 2.5 * \text{Beta})$
7. Any day in the next year with SAIDI > T_{MED} is a major event day

Storm toll: 2 dead, 4 hurt, 450,000 lose power

A block-long length of power lines and poles are shown in Lake City after they were knocked down during a windstorm that caused damage across the Pacific Northwest on Saturday, Aug. 29, 2015.

A powerful and rare summertime windstorm packing 50-70 mph winds is being blamed for two deaths, four injuries and knocking out power to our 450,000 people Saturday afternoon.

A father driving in Gig Harbor with his 3-year-old son [was killed when a tree fell on his car](#). He died at the scene; his son was not hurt. In Federal Way, [a 10-year-old girl was struck and killed](#) by a falling branch while attending a sleepover.

[Four others were hurt](#) during the Deuces Wild Triathlon at Joint Base Lewis-McChord on Saturday morning when three trees fell. The injured were taken to Madigan Army Medical Center for treatment of non-life-threatening injuries, officials said. Two have since been released while two more are being held overnight for observation.

There were many other tales of close calls amid dozens of reports of downed trees and power lines across much of the Western Washington lowlands, damaging homes and wreaking havoc on roads and freeways. Crews working to restore power were taxed by the storm's breadth. It tore trees out of the ground across a vast swatch of the Pacific Northwest, stretching manpower and equipment thin.

"If it just hits one part of our service area, you can maybe send crews down from another area. But this is a service-area-wide event," said Christina Donegan, a spokeswoman for Puget Sound Energy, which reported 224,000 customers without power by early evening.

In the North Sound, a large tree fell across the northbound lanes of Interstate 5 near 196th Street Southwest in Lynnwood, striking one car, but no one was hurt. I-5 was also shut down in the southbound direction for a time near Northeast 145th Street in Shoreline due to downed trees.

Over on Interstate 405, eight trees toppled along the southbound lanes just south of state Route 527 in Bothell, according to the state Department of Transportation. There have been multiple reports of trees down on local roads across the region. Several trees toppled in the Olympic National Park, prompting park rangers to close all roads into the park and campgrounds. Puyallup closed all its parks in the city and ordered the closure of the Farmers Market in Pioneer Park.

In Shoreline, power lines fell on a truck at North 185th Street and Dayton Avenue North, setting the truck on fire. No one was hurt. In Lacey, firefighters had to board water rescue craft to save two people whose boat overturned on Long Lake. They were safely rescued.

At the peak of the storm, Puget Sound Energy reported more than 223,000 people without power while Snohomish PUD estimated over 175,000 outages and Seattle City Light had about 59,000 at their peak. Tacoma Public Utilities reported 20,000 around midday but had restored more than 10,000 of those by late afternoon.

Wind speeds were on par with some of the stronger storms Western Washington typically receives in the late fall and winter, with gusts in the Seattle-Tacoma area reaching 40-50 mph, while gusts to 60-70 mph were common in the North Sound and along the coast. Whidbey Island Naval Air Station reported a gust of 70 mph, while Everett's Paine Field had multiple gusts around 60 mph, peaking at 61 mph. The Coast Guard took a report from a boat in the Rosario Strait that recorded a gust of 81 mph. Lopez Island clocked in at 66 mph and Bellingham hit 58 mph.

Closer to the metro area, Tacoma reported a gust of 54 mph, while Gig Harbor hit 51 mph and Seattle hit a gust of 46 mph. Over on the coast, Westport hit 63 mph while Forks, Hoquiam and Astoria all hit 62 mph. But the largest gust recorded in the western half of the state belonged to Destruction Island just off the north coast, which measured a sustained wind of 79 mph gusting to 87 mph.

Those kinds of wind speeds would do damage in any month, but the damage with this storm was particularly severe because the trees were still heavy and full of leaves. The first windstorm of a season tends to be the one to break off the most susceptible branches that weakened over the summer, which was especially an issue this summer with our recent dry weather.
