Dear Mr. King:

RE: Docket UE-160773- Avista Utilities Revised Energy and Emissions Intensity Report

In compliance with WAC 480-109-300, "Energy and emissions intensity metrics", Avista Utilities (dba "Avista" or "Company") submitted its Energy and Emissions Intensity Report for calendar year 2015 on June 1, 2016. As a result of discussions with Commission Staff, the Company hereby submits a revised version of its report for calendar year 2015. The revised report updates the emissions profiles for sales from unknown resources with the average emissions of Avista's known resources for each year, instead of using the default number for unknown resources issued by the Department of Commerce.

Included with this revised filing are the Company's "**Confidential**" workpapers supporting the report. These workpapers should be treated as CONFIDENTIAL per WAC 480-07-160 and RCW 80-04-095. Given the voluminous and electronic nature of these workpapers, they are being provided in electronic format only.

If you have any questions regarding this information, please contact John Lyons at 509-495-8515 or myself at 509-495-4975.

Sincerely,

/s/Linda Gervais/
