State Of WASH.
UTIL. AND TRANSP.
COMMISSION

In Docket TR-180007, the Commission approved installation of crossing gates at USDOT 917918M by Order 01, effective January 11, 2018. The Order, in §12(3) states:
Petitioner must notify Commission Staff within 30 days upon completion of this project.

Tacoma Rail did not inform the Commission of completion of the project. However, a review of Commission records shows that Rail Safety staff inspected the crossing in March 2018. Records and photographs confirm that installation of an asphalt crossing surface and addition of pavement markings is complete and in compliance with Order 01 in TR-180007.

This matter is now closed.
