UTIL. AND TRANSP.
COMMISSION

Dear Amanda Maxwell,

Enclosed please find proposed revisions to Tariff No. 1, Certificate G-259, the purpose of which is for a general rate increase request. We have owned the company since March of 2011, and in such time have not filed to increase rates until now. The proposed rates will offset the increased expenses we have incurred since 2011, including increases in tipping fees at the Stevens County Landfill, repairs and maintenance expenses, fuel costs, and investment in operating assets, among others. If approved by the Commission, the overall revenue requirement increase reflected in this filing would approximate 36.34% or \$15,349. The requested rates include revisions to all rates based on the results of a cost of service study created in preparation for this filing. As such, the estimated rate impacts vary between each service.

The proposed rates impact services provided as follows:

	% Revenue Change	\$ Revenue Change	Estimated Rate Impacts
Garbage	36.34%	\$15,349.00	-10% to 54%

As required by Commission rules, a copy of this transmittal letter will be mailed to Stevens County which is impacted by this filing. Customer notification letters will be mailed on or before January 30, 2022. We will file a final copy of the customer notices with your office prior to or at the same time as the mailing.

Sincerely,

LeeAnne Lamb
