Hi Jason and whomever else it may concern,

Attached is our response to the penalty assessment. There was a misunderstanding on our end on exactly how this process needed to be handled. According to our conversation with the investigator we thought we would receive a notice to cancel and within 30 days we needed to provide a Safety Management Plan. I was unclear that this response needed to be submitted before then, and that it is a separate part of the process. We truly do want to comply, and I hope the attachment is seen as such.

Also, I can only send so many attachments at once, so I will be sending a follow up email with the additional attachments.

Good morning,

The penalty assessment was issued on July 8 and the Notice of Intent to Cancel and Scheduling of BAP was electronically served on July 26 to the email on file (miraclemanmovers@gmail.com). I have attached both documents to this email.

For future reference to this case, you can access all posted documents from the UTC's public website by using the docket search function and referencing docket TV-220511.

The link below will take you directly to that docket page. From here you can access anything that is submitted in this case.

Good afternoon,

We were told we would receive a letter and would have 30 days to present our safety plan and could apply for mitigation. We have not received the letter however we started our safety plan for submission when Sandy left our premises.

Will we receive a letter or not or should respond to this notice.

We look forward to directions from your office.

Kind Regards,

Chris Bullock
