YOU MUST RESPOND WITHIN 15 DAYS OF THIS NOTICE

The Washington Utilities and Transportation Commission (Commission) believes that Island Water and Septic, LLC, d/b/a Bob's Septic (Bob's Septic or Company) violated Revised Code of Washington (RCW) 19.122.030(2) by failing to provide notice to a one-number locator service not less than two business days before the scheduled excavation.

RCW 19.122.070(1) states, in part, that violations of any provision of the chapter are subject to a civil penalty of not more than \$1,000 for an initial violation and not more than \$5,000 for each subsequent violation within a three-year period.

On April 12, 2023, the Washington State Dig Law Safety Committee (Safety Committee) heard case 23-001 filed by Lindsay Hood (Complainant) against Bob's Septic and determined Bob's Septic violated RCW 19.122.030(2) by failing to provide notice to a one-number locator service not less than two business days before the scheduled excavation. The Safety Committee recommended that the Commission impose a \$1,000 Penalty Assessment (penalty).

Commission staff (Staff) conducted an investigation that included reviewing documents, reports, and communications with the Safety Committee and all parties involved.

The Commission reviewed the findings and recommendations made by the Safety Committee and hereby notifies you that it is assessing a \$1,000 penalty against you on the following grounds:

1. **Alleged Violation:**

The Complainant states that on January 3, 2023, Bob's Septic excavated at 2189 Inverness Way in Coupeville, Washington, without first calling the one-number locate service.

2. **Analysis:**

The alleged violation concerns RCW 19.122.030(2) for failing to provide notice to a one-number locator service not less than two business days before the scheduled excavation. The Complainant filed a complaint with the Safety Committee and reported that Bob's Septic excavated on the property adjacent to them, and during that process, damaged the Complainant's fiber cable. The complaint reported that two days prior it had communicated concerns to the landowner about whether proper permits and processes were being followed. The landowner told the complainant they could do what they wanted on their own property. The Complainant reported that after Bob's Septic damaged their fiber cable, they contacted the one-number locate center and found Bob's Septic had no valid locate ticket. During the Safety Committee review, the Complainant explained how the fiber interruption nearly cost her a job opportunity as she was in the middle of an online interview. Bob's Septic told the Committee that he calls for locates most of the time but did not on this occasion and felt that the Complainant just had some vendetta with him. Staff reviewed the One Call Center ticket database and did not find a locate for Bob's Septic for this location.

The Commission considered the following factors in determining the appropriate penalty amount for the violation:

1. **How serious or harmful the violation is to the public.**

These incidents could have been significantly more harmful to Company workers, utility technicians, nearby homeowners, and the public, and could have resulted in severe injury and/or loss of property.

2. **Whether the violation is intentional.**

The violations appear to be due to negligence rather than a lack of knowledge of Washington state's dig law. Over the past 12 months, Bob's Septic has called in 4 requests to the One Call Center for locates. This demonstrates the Company's knowledge of its requirements and responsibility to contact the one-number locate service before beginning excavation.

3. **Whether the company self-reported the violation.**

Bob's Septic did not self-report the violation. The Commission became aware of the violation when the Complainant filed a complaint with the Safety Committee following the damage incident.

4. **The likelihood of recurrence.**

Bob's Septic's likelihood of recurrence depends on the Company's actions going forward and its willingness to notify the one-number locate service every time before beginning excavation.

The Commission has considered these factors and agrees with the Safety Committee's findings of probable violation and penalty recommendation, as follows:

- \$1,000 penalty for one violation of RCW 19.122.030(2) with an offer to suspend an \$800 portion of the penalty for one year, and then waive it, subject to the conditions that:
 - 1) Company supervisors and field crew responsible for excavation complete Dig Safe Training provided through the National Utility Contractors Association (NUCA) within 90 days of this Penalty Assessment;
 - 2) The Company must submit documentation of that attendance to the Commission; and
 - 3) The Company must not commit any further violations of RCW 19.122 within 12 months of the date of this Penalty Assessment.

These facts, if proven at a hearing and not rebutted or explained, are sufficient to support the Penalty Assessment.

Your penalty is due and payable now. If you believe the violation did not occur, you may deny committing the violation and contest the penalty through evidence presented at a hearing or in writing. Or, if there is a reason for the violation that you believe should excuse you from the penalty, you may ask for mitigation (reduction) of the penalty through evidence presented at a hearing or in writing. The Commission will grant a request for a hearing only if material issues of law or fact require consideration of evidence and resolution in a hearing. Any request to contest the violation or for mitigation of the penalty must include a written statement of the reasons supporting that request. Failure to provide such a statement will result in denial of the request. *See* RCW 81.04.405.

If you properly present your request for a hearing and the Commission grants that request, the Commission will review the evidence supporting your dispute of the violation or application for mitigation in a Brief Adjudicative Proceeding before an administrative law judge. The administrative law judge will consider the evidence and will notify you of their decision.

You must act within 15 days after receiving this Penalty Assessment to do one of the following:

- Pay the \$1,000 penalty amount due; or
- Pay \$200 and notify the Commission that you accept the offer to suspend an \$800 portion of the penalty amount subject to the following conditions:
 - Bob's Septic management and the field crew responsible for excavation must complete NUCA Dig Safe Training (<https://utc-9183.quickbase.com/db/bpkt6vndh>) within 90 days of service of this Penalty Assessment; and
 - **The Company must submit documentation of that attendance to the Commission;** and
 - Bob's Septic must not incur any additional violations of RCW 19.122 within 12 months of the date of this Penalty Assessment; or
- Request a hearing to contest the occurrence of the violations; or
- Request mitigation to reduce the amount of the penalty.

Please indicate your selection on the enclosed form and submit it electronically through the Commission's web portal at <https://efiling.utc.wa.gov/Form> **within FIFTEEN (15) days** after you receive this Penalty Assessment. If you are unable to use the web portal, you may submit it via email to records@utc.wa.gov. If you are unable to submit the form electronically, you may send a paper copy to the Washington Utilities and Transportation Commission, P.O. Box 47250, Olympia, Washington 98504-7250.
