Service Charges and Credit Policy

A service charge of \$10.00 shall be applied to each account for each payment returned unpaid for any reason by the financial institution upon which the payment is drawn.

Utility payments are due upon receipt and past due after the 16th of each month. Action to collect a delinquent account may include disconnection of service unless satisfactory payment or arrangements are made. The customer will be charged a dispatch fee for the collection of a delinquent account (this includes failure to follow through with arrangements or payments returned unpaid).

There is a reconnect fee that is due if service is disconnected for any reason, except when disconnection is done for the convenience of the company. Restoration of service will be made after payment of applicable charges, including reconnect fees.

Please call 3 business days in advance to discontinue service.

EMERGENCY METER ACCESS: Most meters are located in the easement between two homes (approx 4 to 5 ft from property line, usually in front or back), but some meters can be as far away as 100 yards from the home. If you are unable to locate your meter, please contact our office at 253-537-6634. In case of an emergency ONLY, water can be turned off at the meter by turning the "arrow bar" clockwise (about a ½ turn with a crescent wrench) until it stops. **TAMPERING FEES WILL APPLY IF RED ZIPLOCK TIES ARE CUT TO TURN WATER ON – ADDITIONAL CHARGES WILL BE BILLED IF THERE IS DAMAGE TO THE METER.**

HOW DO I REQUEST AN ADJUSTMENT TO MY BILL AFTER A LEAK IS REPAIRED?

Submit a written request for a leak adjustment, briefly explaining what the leak was and if it has been completely repaired. The request must include a copy of the plumber's invoice or receipts for the parts purchased to repair the leak. Once the request and proof of repair has been received, a work order will be generated and a meter reader will be dispatched to confirm the repair. The Customer Care Committee will then review the request. If an adjustment is granted, the amount originally billed at the tier 3 rate will be recalculated using the lower tier 2 rate for one billing period only - usually the highest billing period if the leak affected multiple billing periods. The customer is notified of the decision by phone or mail. If a high balance remains on the account after the adjustment, the customer may be able to set up a payment arrangement by contacting the Billing Department.
