Kippi – Further explanation from Benton County regarding their request for an extension of time to comply with conditions in the order.

If you need anything else from me, just let me know. I'm in the office all day tomorrow.

Thanks -

Kathy

Kathy,

Thank you again for your efforts on this.

Due to key personnel turnover here at Benton County, specifically Mr. Bowie who was the County Engineer at the time of this finding, there was a delay in the collection of the specific data required. The requested extension would allow us to comply with more accurate data to the Washington Utilities and Transportation Commission.

Again, I appreciate your consideration of our request.

Daniel S. Ford, PE

County Engineer

Benton County

Dan,

Our legal department is evaluating the City's request for the extension of time to comply with the requirements in the order. However, more information needs to be provided by the city in order to make a decision. Could you provide me with the reason why the extension is needed and why 60 days is being requested.

I spoke with Norm yesterday and we discussed the extension but the reasons need to be documented so the legal department can evaluate the request.

A reply to this email is fine.

Thank you.

Kathy,

I am sorry for the trouble this has caused.

Please find attached, the letter that you and Norm Childress spoke about requesting an extension of time.

Thank you.

Good morning Dan.

I'm checking in because there is an annual compliance filing due in TR-100572 today. I've attached copies of the relevant orders that the Commission issued approving the Piert Road crossing, which include the compliance requirements.

If you have any questions, please contact me.

Thanks -
