Subject: AVISTA COAL ELECTRICITY GENERATION Reference Docket # UE-161036

Dear Sir or Madame:

Reference Docket # UE-161036

My name is Robert Kerr M. D. I am a resident of Spokane and an Avista customer. In looking to the future health of our planet and its ability to sustain both its human and non-human populations I would endorse that the commission work with the Utility to phase out as soon as possible its coal and other fossil fuel electrical sources and move as rapidly as possible to wind and solar and other renewable electrical generation sources.

Sincerely,

Robert Kerr MD
4302 South Magnolia St.
Spokane, WA 99203
