Re: Docket No. UT-023003; Revisions to Issues List

Dear Ms. Washburn:

AT&T Communications of the Pacific Northwest, Inc. ("AT&T") and XO Washington, Inc. ("XO") provide the following proposed revisions to the issues list in the above-referenced proceeding pursuant to the Commission's request in its Twentieth Supplemental Order. AT&T and XO agree with Commission Staff that with the exception of revised geographically deaveraged rates for 2/4-wire analog loops and sub loops, all Qwest issues should be removed from the issues list. AT&T and XO also agree that the issues list for OSS/All Nonrecurring Costs should be addressed at the prehearing scheduling conference to be conducted following the evidentiary hearings on the recurring cost issues. AT&T and XO propose no other revisions to the issues list.

Please contact me if you have any questions about these proposed revisions.

Very truly yours,

Davis Wright Tremaine LLP
