DL-26	Federal Register Notice: Great Lakes Pilotage Rates - 2023	4
DL-27	Florida Board of Pilot Commissioners Order dated July 1,	5
	2020	

1		I. <u>IDENTIFICATION OF WITNESS</u>		
2				
3	Q:	Please state your name and position for the record.		
4	A:	My name is David Lough. I am an executive compensation consultant with A	Ascend	
5	Const	sulting based in Seattle, Washington.		
6				
7		II. <u>PURPOSE OF TESTIMONY</u>		
8	Q:	What is the purpose of your testimony?		
9	ν.	what is the purpose of your testimony.		
10	A:	My rebuttal testimony responds to PMSA positions on fair and reasonable ne	t income for	
11	PSP p	pilots, the role of compensation in the success of a DEI program and also update	es my prior	
12	testin	mony regarding the median net income earned by members of pilot groups throu	ighout the	
13	United States based on all the publicly available information through March 1, 2023.			
14				
15	Q:	As you saw from their testimony, UTC Staff advocates for a level of distr	ributable	
16				
17	net ir	ncome for PSP pilots that is unchanged from the \$410,075 that went into ef	fect under	
18	Orde	er 09 in January 2022 and the PMSA through Captain Moore actually prop	poses that	
19	DNI	be reduced by 15% to \$346,391. What is your opinion on whether either of	these	
20	prop	oosed DNI figures represents pilot compensation that is "fair, just, reasonal	ole, and	
21	suffic	cient for the provision of pilotage services" in Puget Sound?		
22	A:	It is "fair and reasonable" to offer compensation opportunities that are aligne	d with and	
23	equiv	valent to what is paid by comparable pilotage districts across the nation for simil	lar and	
24	-			
25	comp	parable work. UTC Staff proposes a net income rate of \$410,075, which is close	e to or at the	
26	botto	om of the set of twelve comparable districts listed in the table on page 6. It repre	esents a	
		BUTTAL TESTIMONY OF DAVID LOUGH Ex 220513	kh. DL-26T Page 1	

	gross undervaluation of the service that a Puget Sound ship pilot performs for the benefit of
1 2	owners and operators of marine terminals and U.S. and foreign vessels as well as the citizens of
2	the Puget Sound region. This is not fair and not reasonable. It is a flawed approach. Even more
4	flawed is the PMSA proposal to cut DNI by 15% to \$346,391. Not only is this not "fair and
5	reasonable," but such massive pay reductions unaccompanied by a declaration of financial
6	exigency or equivalent emergency situation is not "just." It would most certainly be interpreted
7	as unjust by the members of Puget Sound Pilots and would risk extreme workforce disruption
8	and backlash to an act of such poor judgment and utmost disrespect. Even major pay reductions
9 10	under emergency circumstances are typically implemented as temporary, while the PMSA
11	proposal goes so far as to offer no provisions for pay restoration. It would be irresponsible to
12	even consider such a proposal as put forth by the PMSA.
13	
14	Q: In your opinion, will a failure on the part of the Commission to approve a DNI that
15	Q: In your opinion, will a failure on the part of the Commission to approve a DNI that is nationally competitive have a negative impact on the morale of the PSP pilot corps?
15 16	
15 16 17	is nationally competitive have a negative impact on the morale of the PSP pilot corps?

There is significant risk that, without demonstrable alignment of PSP DNI with rates among comparable districts, compensation treatment will be perceived as unfair, unreasonable and unjustifiable by the members. Experiences and observations of employers across all sectors indicate that a rate at or above the midpoint (median) of rates among comparable organizations will be considered fair and respectful treatment. Rates below that risk unfavorable impact on employee morale, productivity and effectiveness in proportion to the degree of negative

	Q:	What is your response to PMSA DEI expert Kathleen Nalty's position that an					
1 2	increase in pilot net income in this rate case is unnecessary to advance PSP's pilot corps						
2	divers	sification efforts?					
4	A:	I disagree. While compensation in and of itself will not suffice to constitute a					
5	compr	rehensive DEI program, if compensation is too low, the success of all efforts to advance					
6	and in	prove an organization, including achieving DEI, are put at risk due to the distraction,					
7	disrup	tion and resentment that poorly conceived and/or executed compensation treatment					
8	engen	ders.					
9							
10 11	Q:	Since the filing of your original testimony on June 29, 2022, have you become aware					
11	of add	litional pilot income and benefits data that is relevant to your analysis in this case?					
13	A:	Yes. I received either updated information from pilot groups listed in the table that is					
14	Exhib	it DL-06 or data from a new pilot group not included in that table.					
15							
16	Q:	Have you updated that table with the benefit of the additional data?					
17	A:	Yes. The updated table is set out below:					
18		1

17	Q:	Please describe the source of new income and benefits data in each instance on the
18	abov	e table.

A: The table adds new data related to lines 11 and 13. On line 11, the projected 2023 net income for the Great Lakes Pilots was increased to \$422,336 based upon a notice in the Federal Register from the US Coast Guard noting that this increase was pursuant to a cost-of-living adjustment. The Federal Register notice is Exh. DL-26. Line 13 is entirely new and adds the data from a public order of the Florida Board of pilotage commissioners dated July 1, 2020 approving a target net income for the St. Johns Bar Pilots of \$564,000 for 2020. The order also

	specifies a 2.5% annual cost-of-living adjustment. With those adjustments for three years, the							
1 2	projected net income for 2023 is \$607,366. This Order is Exh. DL-27.							
3								
4								
5	Q: With the benefit of the additional pilot income and ben	efits data that	you	just				
6	described, did you update the table on page 18 of your origina	l testimony re	gard	ling pay				
7	differentials from location to Seattle?							
8	A: Yes. The updated pay differentials table is set out below:							
9	PAY DIFFERENTIALS FROM LOCATION T	O SEATTLE						
10 11				Differential (source:				
12	Pilot Group	Office Location	-	Salary.com)				
14	1 St. Johns Bar Pilots		FL	16.3%				
13	2 Crescent River Port Pilots' Association	Metairie	LA	10.5%				
	3 Port Everglades Pilots' Association		FL	12.3%				
14	4 Lake Charles Pilots	Lake Charles	LA	20.7%				
	5 New Orleans Baton Rouge Steamship Pilots Association (NOBRA)	Metairie		10.5%				
15	6 Associated Branch Pilots/BAR	Metairie		10.5%				
	7 Pilotage Division of the Port of Grays Harbor	Aberdeen	WA	9.1%				
16	8 Columbia River Pilots	Astoria	OR	6.3%				
1 -	9 Columbia River Bar Pilots 10 Great Lakes Pilots Associations	Portland Port Huron	OR MI	5.3% 8.4%				
17			-	-3.3%				
10	11 Los Angeles Pilot Service       12 San Francisco Bar Pilots	Los Angeles	CA CA					
18		San Francisco		-12.5%				
19	Information for St. John's Bar Pilots (line 1) has been added. Info	ormation for all	othe	r				
20	organizations remains the same.							
21	Q: With the benefit of the new and/or updated pilot group	income data	desci	ribed				
22 23	above, did you update the 2023 pilot group net income table of	n page 19 of y	dur (	original				
24	testimony, which derives the median net income figure of all li	sted pilot grou	ıps?					
25	A: Yes. The updated median net income figure table is set our	below:						
26								
20								

			Location	Adjusted
		Projected	Adjustment	Projected
		2023 Net	to Seattle	2023 Net
	Pilot Group	Income	Metro	Income
1	St. Johns Bar Pilots	607,366	16.3%	706,367
2	Crescent River Port Pilots' Association	621,693	10.5%	<b>686,97</b> 1
3	Port Everglades Pilots' Association	607,095	12.3%	681,768
4	Lake Charles Pilots	550,000	20.7%	663,850
5	New Orleans Baton Rouge Steamship Pilots Association (NOBRA)	594,127	10.5%	656,510
6	Associated Branch Pilots/BAR	547,619	10.5%	605,119
7	Pilotage Division of the Port of Grays Harbor	497,759	9.1%	543,055
8	Columbia River Pilots	503,527	6.3%	535,249
9	Columbia River Bar Pilots	503,527	5.3%	530,214
10	Great Lakes Pilots Associations	422,336	8.4%	457,812
11	Los Angeles Pilot Service	456,719	-3.3%	441,647
12	San Francisco Bar Pilots	443,923	-12.5%	388,433
	50th Percentile (Median)	525,573	9.2%	574,087
Q:	Based on the analysis you performed as reflected in t	ha ahava ta	abla what	is tha
v٠	Dascu on the analysis you perior met as reneeted in t	IIC ADOVE LA	abic, what	is the

# 12 updated median net income figure for the pilot groups analyzed?

13 A: Due to the addition of St. John's Bar Pilots, the highest paying among all, to the set of 14 comparable organizations, the result for projected median 2023 DNI has increased from 15 \$543,055 to \$574,087. With a larger sample size, there is now a more accurate and more 16 credible representation of the middle (median) DNI rate among comparable districts for 17 reference as a basis in setting the rate for Puget Sound Pilots. 18 19 20 **O**: In light of this updated median net income figure, what is your opinion regarding 21 the level of distributable net income or DNI that is necessary for PSP to be competitive 22 nationally in attracting a fair share of the best pilot trainee candidates in the United States? 23 A: All of those who oversee and govern the financial condition and operation of an 24 organization in the interest of short-term success and long-term sustainability must weigh the 25 costs, benefits and risks of their selected approach to positioning employee compensation against 26

	the rates	s paid by comparable employers. Paying above the middle (median) rate results in
1 2	addition	al costs, but may also result in additional benefits that offset and outweigh the marginal
-3	costs du	e to increased morale, commitment, efficiency, productivity and effectiveness on the part
4	of the w	orkforce. Paying below the median rate saves money, but, at some level of deviation,
5	produce	s excessive and intolerable risk of negative impacts, financial and otherwise, that can be
6	directly	attributable to poor treatment in terms of compensation. It becomes a matter of
7	judgeme	ent for those who oversee and govern the organization to determine the optimal
8	position	ing for that organization within the range of practices exhibited by comparable
9	employe	ers. My testimony provides an accurate, credible, justifiable and defensible portrayal of
10 11	the curre	ent median rate as \$574,087. I advise minimal deviation from this rate without a strong
11	rational	e for, on the upside, why benefits will exceed marginal costs or why, on the downside,
13	savings	will outweigh risks. In the absence of a very good reason otherwise, pay the median
14	rate.	
15		
16		III. CONCLUSION
17	Q: 1	Does this conclude your testimony?
18		
19	A: \	Yes.
20
