## Avista Corp. Brief Description of Power Supply Adjustments

### Line No.

 AURORA Dispatch Simulation Model. The proforma value reflects the short-term purchases during the proforma period from the dispatch simulation study.

Short-term Purchases - Short-term purchases are normalized through use of the

- Rocky Reach The proforma cost for Rocky Reach is based on Chelan PUD's 2005 budgeted expenses. Avista's costs are based on the Company's 2.9% share of total cost.
- Wanapum Proforma costs are based on Grant Count PUD's Power Cost Forecast for Wanapum. Avista's costs are based on the Company's 8.2% share of total cost.
- **Priest Rapids** Priest Rapids proforma costs are \$0 because the contract for Priest Rapids ends October 31, 2005.
- Wells Wells' costs are based on Douglas PUD's Power Purchaser's Pro-Forma Statement. Avista's costs are based on the Company's 3.5% share of total cost.
- 6 WNP-3 Proforma costs are based on the 5-year average amount of energy and the midpoint rate for contract year 2004 through 2005 escalated at the 5-year average escalation rate.
- **Grant Displacement** Grant Displacement is scheduled energy from Grant PUD that is priced at the BPA PF rate.
- 8 Grant Revenue Credit- Grant Revenue Credit is based on the sale of Avista's allocation of 30% (Reasonable Portion) of the Priest Rapids and Wanapum projects.
- **Contract A** This is a power purchase for the period January 2004 through December 2006 (Contract details are provided in a CONFIDENTIAL workpaper).
- **Contract B** This is a power purchase for the period January 2004 through December 2006 (Contract details are provided in a CONFIDENTIAL workpaper).
- **Contract C** This is a power purchase for the period January 2004 through December 2006 (Contract details are provided in a CONFIDENTIAL workpaper).
- **Contract D** This is a power purchase for the period January 2004 through December 2006 (Contract details are provided in a CONFIDENTIAL workpaper).

- **Wood Power Inc. (WPI) Amortization** Wood Power amortization expense ended December 2004.
- **Deer Lake-IP&L** Proforma expense is same as test year.
- **Small Power** Proforma costs are based on an expected generation and proforma period contract rates. (Contract details are provided in a CONFIDENTIAL workpaper).
- **Haleywest** This purchase is from the cogeneration plant at Plummer, Idaho. Proforma costs are based on expected generation and proforma period contract rates. This contract expires September 2006, but expectation is that it will be extended at avoided cost rates. (Contract details are provided in a CONFIDENTIAL workpaper).
- **Spokane-Upriver** Proforma expense is based on the new contract effective July 2004. Proforma expense is based on a purchase on the net of pumping (at the plant) generation at a rate equal to the 8 year levelized avoided cost included in the Company's 2003 Integrated Resource Plan.
- 18 Capacity Purchases Proforma expense is \$0. Test year 2004 capacity purchases were for exchange capacity, which is not included in the proforma expense.
- **Black Creek Index Purchase** Expense is for an October purchase at index prices less transmission expense and a margin.
- **Non-Monetary** Non-monetary accruals include accounting entries related to timing differences to properly match revenues and expenses. The account is adjusted to \$0 in the proforma.
- **Potlatch Co-Gen Purchase** Proforma expense is \$0 because entire purchase expense is allocated to Idaho jurisdiction.
- **PPM-Stateline Wind Purchase** Proforma expense is for a 10-year purchase from a Northwest wind project. Expense is based on expected energy amount time contract rate. (Contract details are provided in a CONFIDENTIAL workpaper).
- 23 Total Account 555
- 24 Microwave Charge Proforma expense is associated with the DES contracts in Account 447.
- **Cogentrix DES Bill Credit** Contract expired 1-22-05.
- **Metering Amortization Cost** Contract ended July 2004.

Exhibit No	(WGJ-3)
------------	---------

**Total Account 556** 

**Broker Commission Fees** – Proforma expense is associated with short-term purchases

and sales.

Fixed Cost Gas Purchases – This is the expense for natural gas purchased for but not consumed for generation. Proforma expense is \$0 because all gas purchased is assumed to be used for generation, and included in Account 547.

BPA Power Factor Penalty Charge - As part of its 2002 Transmission Rate Case,

BPA began charging interconnected control areas for reactive power supplied by BPA.

Charges began in 2003. Proforma expense is based on the expected BPA charge, which

is based on the estimated reactive power supplied to Avista.

**Total Account 557** 

**Kettle Falls Wood Fuel Cost** - Proforma fuel expense is based on the generation of the Kettle Falls plant in the AURORA Model simulation and the projected unit cost of fuel.

Kettle Falls Gas - Proforma expense is \$0 because gas was not a fuel option for Kettle Falls in the AURORA Model.

Colstrip Coal Cost - Proforma fuel expense is based on the generation of the Colstrip plant in the AURORA Model simulation and the projected unit cost of fuel.

Colstrip Oil – Proforma expense is based on the test year cost for start-up oil expense. 

> **Total Account 501**

Coyote Springs Gas - Proforma expense is an output of the AURORA Model simulation based on the projected unit cost of fuel and the dispatch of the plant, which determines the volume of fuel consumed.

Gas Transportation Charge - This expense is for transportation of natural gas from AECO to the Coyote Springs 2 plant. Proforma expense is based on transportation charges in Canada and from the Canadian Border (Kingsgate) and for the Coyote Springs lateral.

Rathdrum Gas - Proforma expense is an output of the AURORA Model simulation based on the projected unit cost of fuel and the dispatch of the plant, which determines the volume of fuel consumed.

25 26 27

28

24

37 38 39

40

35

36

41 42 43 Northeast CT Gas - Proforma expense is an output of the AURORA Model simulation based on the projected unit cost of fuel and the dispatch of the plant, which determines the volume of fuel consumed.

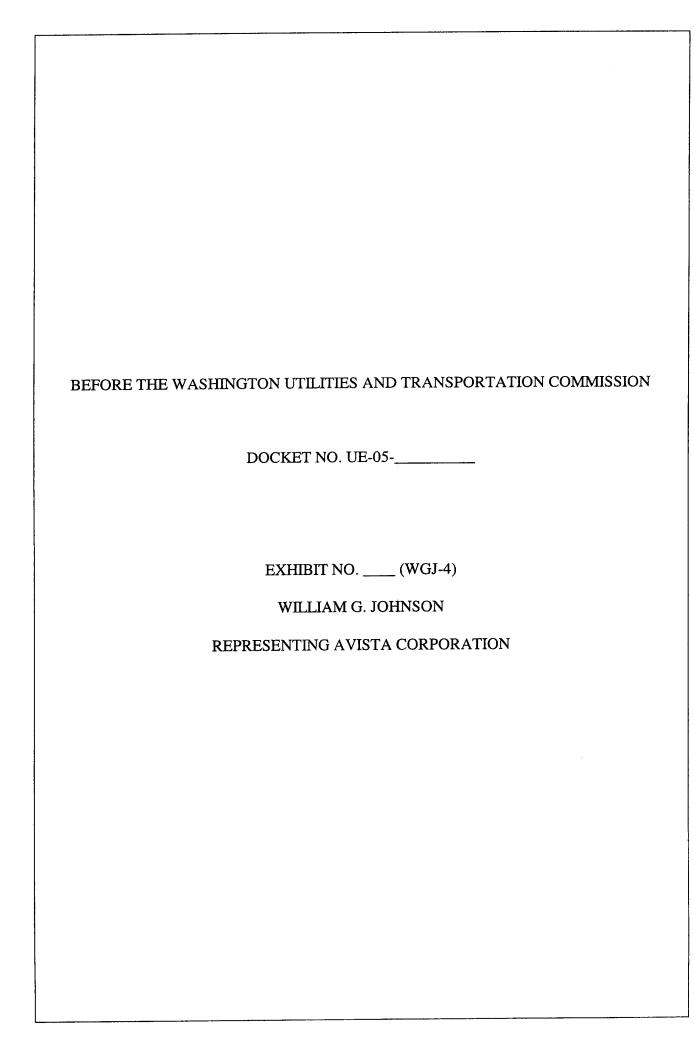

- 41 **Boulder Park Gas** – Proforma expense is an output of the AURORA Model simulation based on the projected unit cost of fuel and the dispatch of the plant, which determines the volume of fuel consumed.
- Kettle Falls CT Gas Proforma expense is an output of the AURORA Model 42 simulation based on the projected unit cost of fuel and the dispatch of the plant, which determines the volume of fuel consumed.
- 43 Rathdrum Gas Storage Fee – This expense is for storage of gas that allows for the immediate availability of gas at the Company's gas fueled plants. Proforma expense is based on Avista's contract for gas storage with Pacific Gas and Electric Company.
- **Total Account 547** 44
- WNP-3 Transmission Proforma WNP-3 wheeling is based on 32.22 MW at a rate of 45 \$1.99714/kW/mo.
- 46 Black Creek Wheeling – Expense is associated with the Black Creek power purchase.
- Wheeling for System Sales and Purchases Proforma expense is based on an average 47 of the past 5 years.
- BPA PTP Wheeling for Colstrip and Coyotes Springs 2- This wheeling is for the 48 transmission of 196 MW from Colstrip at the Garrison substation and 270 MW from the Coyote Springs 2 plant to Avista's system. Proforma expense is based on 466 MW of capacity at a rate of \$1.487/kW/mo. In July 2004 Avista place a 123 MW transmission request on BPA for the output of the second half of Coyote Springs 2. BPA does not have adequate annual firm transmission available to meet Avista's request. Until additional annual firm transmission is available Avista will make other arrangements to wheel power from the second half of Coyote Springs 2, which may include purchasing monthly firm or nonfirm transmission or entering into purchase To the extent Avista enters into purchase and/or sale and/or sale agreements. agreements to wheel power from Coyote Springs 2 the cost of those arrangements will be credited to customers in the ERM deferrals.
- BPA Townsend-Garrison Wheeling This expense is for the transmission of Colstrip 49 power from the Townsend substation to the Garrison substation. Proforma expense is based on the 2003 test year expense escalated for anticipated O&M cost increases.

- 50 Avista on BPA Borderline This expense is for Avista load served using BPA facilities. The current General Transfer Agreement with BPA ends December 31, 2005. Beginning January 2006, Avista will be required to purchase BPA NT transmission to serve its borderline loads. Proforma expense is based on Avista's borderline loads priced at BPA's NT transmission rates plus ancillary services cost and use of facilities charges.
- **Kootenai for Worley** This expense is for Avista load served using Kootenai PUD's facilities. Proforma expense is same as test year.
- Garrison Burke Wheeling Garrison Burke wheeling reflects the transmission of Colstrip energy above 196 MW from the Garrison substation over Montana Power's transmission system to the interconnection of Montana and Avista at Burke. The proforma expense is based on the 5-year average expense.
- PGE Firm Wheeling PGE Firm wheeling reflects the cost of transmission from the John Day substation to COB (Intertie South) purchased from Portland General Electric. The Proforma expense is based on 100 MW at the current rate of \$.53549/kW/mo.
- 54 Total Account 565
- **Headwater Benefits Expense** Proforma expense is based on the expense for contract year September 2004 through August 2005.
- **Rathdrum Lease Payments** Proforma costs reflect payments per the lease payment schedule.
- **Rathdrum Municipal Payment** This includes an annual payment of \$50,000 and amortization of a \$1 million payment in 1995 to the city of Rathdrum for mitigation related to the Rathdrum generating facility.
- **Total Expenses** Sum of Accounts 555, 556, 557, 501, 547, 656, 536, 550, 549 and 553.
- **Short-Term Market Sales** Short-term sales volumes and market prices are normalized through use of the AURORA Model simulation. The proforma value reflects short-term sales during the proforma period.
- **Peaker (PGE) Capacity Sale** This proforma revenue is based on 150 MW of capacity at a price of \$1/kW/mo.
- **Spokane Energy Service Fee** This is an expense associated with the Peaker (PGE) Capacity Sale. The proforma revenue reduction in Account 447 is \$63,000, of which \$48,000 is included as Spokane Energy Scheduling Service revenue in Account 456.

- **BPA on Avista Load Following Revenue** The current General Transfer Agreement with BPA ends December 31, 2005. Beginning January 2006, BPA will be required to purchase transmission from Avista to serve its borderline loads. Proforma revenue is for ancillary services provided to BPA under Avista's Open Access Transmission Tariff.
- Nichols Pumping Sale This is a sale of energy to other Colstrip Units 3 and 4 owners at the Mid Columbia index price. Proforma revenue is based on 8 MW at the market price as determined by the AURORA model.
- Kaiser DES This contract provides load control services to Kaiser's Trentwood plant. (Contract details are provided in a CONFIDENTIAL workpaper).
- Pend Oreille DES & Spinning Reserves This contract provides load control and spinning reserves for Pend Oreille PUD. (Contract details are provided in a CONFIDENTIAL workpaper).
- 66 Mirant Coyote Springs 2 Reserves Contract ended January 20, 2005.
- **Sovereign DES** Contract ended August 2004.
- 68 Total Account 447
- **Spokane Energy Scheduling Services** This revenue is for scheduling services provided to Spokane Energy to serve the Peaker (PGE) Capacity Sale. This revenue (except \$15,000 retained to pay for administrative expenses related to servicing the contract) offsets the revenue reduction in Account 447.
- **Skookumchuck Hydro** Plant was sold November, 2004.
- 71 Gas Not Consumed Sales Revenue This is the revenue for natural gas purchased for but not consumed for generation. Proforma expense is \$0 because all gas purchased is assumed to be used for generation, and included in Account 547.
- 72 Total Account 456
- **Upstream Storage Revenue** Proforma revenue is based on the revenue for contract year September 2004 through August 2005.
- **Colstrip Rents** Proforma revenue is based on expected revenue.
- **Total Revenue** Sum of Accounts 447, 456, 453 and 454.

Exhibit No	(WGJ-3)
------------	---------

**Total Net Expense** – Total expense minus total revenue.
