

David,

Gold Tel will not exhaust our designated NPA/NNX's in the 360 area code for several years.

Gold Tel is in the process of turning up Mt Vernon Tandem numbers (GTE failed to process the incoming trunks and are expediting) and will complete the turn up by May 5, 2000. The assigned NPA/NNX's in the Mt Vernon Tandem are:

360/559 Mt Vernon
360/558 Ferndale

Oak Harbor 360/622 from the Everett Tandem is not due until 11/7/2000; however will be up by 5/30/2000.

We also have been assigned 360/550 in Olympia. Our goal is to have it up and working by 5/30/2000 (if US West does not delay the order for no facilities).

Please accept Gold Tel's apology for the late response. Receipt of the 4/18 fax was our first notification; which was sent to our Corporate Headquarters; which was then forwarded to me. Please direct any future inquiries directly to:
