EXHIBIT PG-8A

March 9, 1999

Advice No. 3003T

Ms. Carole Washburn
Office of the Secretary
Washington Utilities and
Transportation Commission
P.O. Box 47250
Olympia, Washington 98504-7250

Dear Ms. Washburn:

U S WEST, Inc. (U S WEST) is forwarding for filing the sheets listed on Attachment A.

This filing introduces a new Provisioning Agreement for Housing Developments (PAHD). PAHD is a contractual arrangement between the Company and the Developer/Builder for the provision of distribution facilities including conduit and trench within new areas of residential development. PAHD replaces the current process of requiring the Developer/Builder to pay U S WEST up front, then be reimbursed as the residential lots are developed and occupied.

PAHD has no effect on contracts entered into with Developer/Builders prior to the effective date of PAHD.

If you have questions concerning this filing, please contact Jane Nishita on (206)345-2316.

Yours very truly,

By _____
Vice President

March 23, 1999

Carole Washburn, Secretary
Washington Utilities and
Transportation Commission
P.O. Box 47250
1300 S. Evergreen Park Dr. S.W.
Olympia, Washington 98504-7250

Attention: Mr. Tom Spinks
Re: Advice No. 3003T

Dear Ms. Washburn:

U S WEST wishes to extend the effective date of the above filing regarding the Provisioning Agreement for Housing Developments. The Company and Staff have planned more discussion on this filing. Please extend the effective date to April 15, 1999.

If you have any questions, please call me at (206) 345-2316.

Very truly yours,

April 7, 1999

Carole Washburn, Secretary
Washington Utilities and
Transportation Commission
P.O. Box 47250
1300 S. Evergreen Park Dr. S.W.
Olympia, Washington 98504-7250

Attention: Mr. Tom Spinks
Re: Advice No. 3003T

Dear Ms. Washburn:

Please replace the 1st Revised Sheet 7 in Section 4 of WN U-31 with the enclosed pages labelled 1st Revised Sheet 7 and Original Sheets 7.1 and 7.2. These replacements are being made as a result of discussions between the Company and Staff regarding Provisioning Agreement for Housing Developments (PAHD).

If you have any questions, please call me at (206) 345-2316.

Very truly yours,

Enclosures

April 9, 1999

Carole Washburn, Secretary
Washington Utilities and
Transportation Commission
P.O. Box 47250
1300 S. Evergreen Park Dr. S.W.
Olympia, Washington 98504-7250

Attention: Mr. Tom Spinks
Re: Advice No. 3003T

Dear Ms. Washburn:

Please replace with the enclosed, the following in Section 4 of WN U-31:

- 2nd Revised Sheet 5
- 1st Revised Sheet 7 (Replacement No. 1)
- Original Sheet 7.1 (Replacement No. 1)
- Original Sheet 7.2 (Replacement No. 1)
- 2nd Revised Sheet 8
- 1st Revised Sheet 9

and in Section 104 of WN U-31:

- Original Sheet 1
- Original Sheet 2
- Original Sheet 3
- Original Sheet 4
- Original Sheet 5
- Original Sheet 6

These replacements are being made as a result of discussions between the Company and Staff regarding Provisioning Agreement for Housing Developments (PAHD).

If you have any questions, please call me at (206) 345-2316.

Very truly yours,

4. CONSTRUCTION CHARGES AND OTHER SPECIAL CHARGES**4.4 PROVISIONING AGREEMENT FOR HOUSING DEVELOPMENTS**

(C)

A. Description

(N)

A Provisioning Agreement for Housing Developments (PAHD) is a contractual arrangement between the Company and the Developer/Builder for the provision of distribution facilities, including conduit for the service lateral trench (from the pedestal to the living unit) within new areas of residential development.

B. Terms and Conditions

1. A PAHD is required where Developers/Builders plan to develop four or more lots. Less than four lots will be treated according to the terms set forth under other portions of this Section 4, if applicable.
2. The Developer/Builder will provide trench and backfill for the facilities and be responsible for those costs. In areas where the Company has trench and backfill agreements with other utilities, the Developer/Builder is responsible for the Company's trench and backfill cost.
3. To accommodate Developer/Builder coordination schedules, with the Company's approval, the Developer/Builder has the option of placing Company provided facilities in the trench.
4. The PAHD will include, but is not limited to: a description of the development; an addressed, recorded plat; trench and backfill specifications; easements; surface grade requirements; and coordination of inspection schedules.
5. The Developer/Builder will be responsible for the provision of the service lateral trench to the living unit. If the Developer is not the Builder, the Builder will be responsible for the provisioning of the trench.
6. The Developer or Builder will be responsible for placing a one inch conduit with adequate pull string for the service drop to the living unit. The conduit will be provided by the Company.
7. The Company will provide the facilities at no charge to the Developer/Builder as long as the cost does not exceed the company established cap, which shall equal the distribution and drop portion of the average exchange loop investment, times the number of lots in the development. The Company may require payment by the Developer/Builder of all costs in excess of the cap prior to the start of any required construction.

4. CONSTRUCTION CHARGES AND OTHER SPECIAL CHARGES**4.4 PROVISIONING AGREEMENT FOR HOUSING DEVELOPMENTS****B. Terms and Conditions (Cont'd)**

8. Distribution facilities covered in the PAHD cannot be used for subsequent developments until they are covered by a new PAHD. (N)
9. The PAHD may vary terms and conditions as appropriate.
10. Residential developments meeting the following criteria will be subject to the provisions of this Section:
 - Developments containing four or more residential building lots or proposed structures.
 - Mobile home parks, including additions of four or more lots to existing mobile home parks.
 - Existing or proposed RV parks requiring telephone facilities to individual spaces.
11. The following do not fall under the provisions of this Section:
 - Developments which consist entirely of multifamily dwellings.
 - RV parks platted for space rental on a short term basis, except as defined in A.1.
 - Marinas.
12. The Company may place, and will own and maintain network facilities in residential developments. (N)

13. If a residential developer refuses to enter into or comply with the terms of:

- Provisioning Agreement for Housing Development (PAHD),
- Line Extension Charges, if applicable (4.2),
- Trench and Backfill Agreement

And the Company receives an application for service, the developer of the real property will be billed for and pay the following costs:

- Full cost of construction of the trench, supporting structure and backfill,
- Cost of the facilities in the development that exceed the Company established cap that would have been applicable had a PAHD been established.
- Any applicable line extension.

A. Charges and Agreements for Extensions into Residential Developments

1. Residential developments meeting the following criteria will be subject to the provisions of this Section:
 - Developments containing four or more residential building lots or proposed structures.
 - Mobile home parks, including additions of four or more lots to existing mobile home parks.
 - Existing or proposed RV parks requiring telephone facilities to individual spaces.
2. The following do not fall under the provisions of this Section:
 - Developments which consist entirely of multifamily dwellings.
 - RV parks platted for space rental on a short term basis, except as defined in A.1.
 - Marinas.
3. The Company will place, own and maintain network facilities in residential developments. See 7., following, for easement and trenching requirements.
4. The Company and the developer will enter into a written Land Development Agreement covering a period of five years for provision of the required Company network facilities. The developer will be charged a facility charge, which is payable in full at least 45 days prior to the start of construction of new facilities in the development by the Company. Developments consisting of more than one phase shall be administered under separate agreements for each phase.

5. If a residential developer refuses to enter into or comply with the terms of:

- Land Development Agreement,
- Line Extension Charges, if applicable (4.2),
- Trench and Backfill Agreement (See 7., Trenching and Backfill),

(T)

And U S WEST receives an application for service, the full cost of construction of the trench, supporting structure and backfill, facilities in the development and any applicable line extension will be billed to and paid by the developer of the real property. A refund will be provided to the developer in accordance with 6., following, with the start date of the refund period deemed to be the billing date. The end date of the refund period shall be five years after the billing date.

6. Facility Charges

The written agreement will include the facility charge, the number of proposed new access lines associated with the development, and an annual refund provision for a maximum period of five years. The annual refund will be determined as follows:

- The number of proposed new access lines, to be specified in the written agreement, will be equal to the greater of the number of proposed lots or living units in the development.
- For the facility charge, see B.3.a.

(M)

[1] The tariff provisions on this Sheet are effective as of May 3, 1999.

104.4.1 EXTENSIONS FOR NEW REAL ESTATE ADDITIONS

(T)

A.6. (Cont'd)

- The annual refund will be determined by applying a facilities refund per access line to the gain in access lines for that year. The facilities refund per access line will be calculated as follows:

- Inside the BRA

$$\begin{array}{l} \text{Facilities Refund} \\ \text{per Access Line} \end{array} = \frac{\text{Facility Charge}}{\text{(Proposed number of access lines x .50)}}$$

- Outside the BRA

$$\begin{array}{l} \text{Facilities Refund} \\ \text{per Access Line} \end{array} = \frac{\text{Facility Charge}}{\text{(Proposed number of access lines x .85)}}$$

- Refunds will not be made in excess of what was originally paid to the Company as the facility charge.
- At the end of five years, any remaining balance not refunded due to underdevelopment of access lines, will revert to the Company.

7. Trenching and Backfill

The provision of buried or underground communication facilities to residential developments shall require the following:

- a. A legally sufficient easement to accommodate the placing and maintaining of the common communication serving facilities (e.g., feeder and distribution cables plus terminal pedestals or like devices and access point cabinets) must be made available to the Company. The surface of the easement area must be brought within six inches of final grade prior to the installation of buried or underground communication facilities.

(T)

A.7. (Cont'd)

- b. The developer or owner shall select the option of either:
- Providing trench, supporting structure and backfill or
 - Paying the Company's portion of joint trench, supporting structure and backfill costs.
- c. Unless the Company provided the trench and supporting structure in each year during the 5-year Land Development Agreement period, developers shall receive a refund of costs incurred for trenching and backfill (T & B). The annual refund will be determined by applying a T & B refund per access line to the gain in access lines for that year as follows: (See B.1.b. for T & B refund rates.)
- Inside the BRA

- T & B Refund per access line	=	Refund rate x number of <u>centerline feet</u> (Proposed number of access lines x .50)
-----------------------------------	---	---
 - Outside the BRA

- T & B Refund per access line	=	Refund rate x number of <u>centerline feet</u> (Proposed number of access lines x .85)
-----------------------------------	---	---
- d. Trenches, supporting structures and backfill within the development must meet Company specifications and be suitable for the Company's distribution facilities. This does not include trenches, supporting structure and backfill for the service drop wire, i.e., the facilities between the pedestal terminal or like device and protector or network interface located on the customer premises. Upon acceptance, the ownership of the supporting structure shall vest in the Company.
- e. In those instances where a trench is open in the development and the Company is properly notified of the trench's availability, and the Company fails to utilize that trench, the Company will bear the costs of providing a trench.

WASHINGTON****SECTION 4
Original Sheet 1****4. CONSTRUCTION CHARGES AND OTHER SPECIAL CHARGES****4.1 CONSTRUCTION WITHIN THE BASE RATE AREA (BRA)****A. Description**

Construction charges and requirements apply within the boundaries of an applicant's or customer's private property when service is requested at a location that has not previously had telephone service, i.e., does not have existing facilities, or when service is requested at a location where existing facilities are at capacity. (Construction within residential developments is addressed in 4.4.1, following.)

B. Terms and Conditions

1. The Company will furnish, install and maintain all network or cable facilities necessary to serve applicants or customers in accordance with its lawful rates, terms and conditions, and with its established construction standards. Applicants and/or customers are required to furnish a support structure(s) designated by the Company for the construction of outside plant facilities and service wire from the Company designated point on the applicant's or customer's property line to a Company designated point at the premises to be served, see B.4, following. Following construction, the Company is responsible for maintenance of Company network and cable facilities and support structures used to provide same service, see 2.4.2.A.
2. The type of construction (buried or aerial) is the prerogative of the Company, except where designated by law.
3. If aerial construction is designated by the Company, the Company will extend aerial facilities within the BRA to the applicant or customer's premises once an adequate supporting structure has been provided. If buried construction is designated by the Company, the Company will extend buried facilities within the BRA to a Company designated point on the applicant or customer's property line. Once an adequate support structure has been provided the Company will extend buried facilities (i.e., service wire) from the Company designated point on the applicant or customer's property line to a Company designated point at the premises to be served unless the property line has been designated as the MPOP.
4. It will be the Company's prerogative to designate the type of supporting structure required for the placement of outside plant facilities and service wires from the designated point on the applicant or customer property line to the premises to be served: trench, conduit, or pole.

The Company will only be required to use an existing support structure when it meets the following criteria:

WASHINGTON****SECTION 4
Original Sheet 2****4. CONSTRUCTION CHARGES AND OTHER SPECIAL CHARGES****4.1 CONSTRUCTION WITHIN THE BASE RATE AREA (BRA)****B. Terms and Conditions****4. (Cont'd)**

- a. The supporting structure follows the same path as designated by the Company for the construction of new facilities;
 - b. The supporting structure has sufficient capacity for the new facilities;
 - c. The consumer has exposed the existing supporting structure for Company use;
 - d. The structure meets current Company standards; or
 - e. The consumer repairs the supporting structure to a level that meets Company standards.
5. The route will be determined by the Company.
 6. Bills for construction charges are not to be construed as being bills for exchange or interexchange service.
 7. A quote for a specific job will be provided to the customer or others requesting the construction. The quote will be in writing and will be good for thirty days after the issue date. When accepted, the customer will be billed the quoted price. A quote is not the same as an approximate figure which may be provided by the Company's personnel. An approximate figure is intended only as an order of magnitude and not as a firm price.

C. Construction Charges within the BRA for Service Wire**1. Aerial Construction**

- a. If a supporting structure is required on the private property of the applicant or customer, it will be the applicant or customer's responsibility to provide the structure at no cost to the Company. The structure must meet Company standards.
- b. If the applicant or customer elects, the Company will provide the structure based on estimated costs. See C.4., following.

Qwest Corporation**WN U-40
EXCHANGE AND
NETWORK SERVICES
WASHINGTON****SECTION 4
Original Sheet 3****4. CONSTRUCTION CHARGES AND OTHER SPECIAL CHARGES****4.1 CONSTRUCTION WITHIN THE BASE RATE AREA (BRA)****C. Construction Charges within the BRA for Service Wire (Cont'd)****2. Buried Construction**

- a. It will be the responsibility of the customer or owner/contractor to coordinate and provide access to a trench and/or supporting structure, as specified by the Company, See B., preceding. This trench and/or supporting structure will meet the Company's established standards and will permit termination of the facilities at the premises to be served from a point on the property line designated by the Company.
- b. Residential applicants or customers may request that the Company provide the supporting structure on their private property. The applicant, customer or others requesting this residential construction will be billed directly, as stated in C.4, following.
- c. If the applicant, customer or owner/contractor wishes to provide a trench whose routing or end points deviate from that specified by the Company, the applicant or customer will be charged the additional actual costs incurred by the Company for accommodating such deviation.
- d. In those instances where the Company is refused access to an open trench or the Company is not notified of the availability of an open trench, it will be the responsibility of the applicant or customer to provide the necessary trench and/or supporting structure. This will be at no charge to the Company.
- e. The actual cost incurred because of sharing an open trench on the applicant or customer's private property with another utility, will be the responsibility of the applicant or customer or others requesting work. In no instance shall a residential applicant or customer be charged more than the charge specified in C.4, following.
- f. In areas where the Company's construction would ordinarily be aerial, and the Company is requested to bury facilities, the cost of construction will be borne by the applicant, customer or others requesting the construction.
- g. The property owner is responsible for the installation of the trench and/or supporting structure utilized for the Company facilities in the provision of new service within the owner's private property.

An approximate figure is intended only as an order of magnitude and not as a firm price.

4.2.2 LINE EXTENSION CHARGES**A. Description**

1. Line extension to premises/locations where the company has not previously extended facilities.

Line extension charges will apply to premises/locations outside the BRA in connection with all classes, types and grades of service (except Farmer Line Service and within the boundaries of residential developments addressed in 104.4.1), when established by means of an extension to the Company's plant facilities consisting of buried wire or pole construction and including extensions by means of poles to be owned by the Company jointly with others, and by means of contacts or contact space on poles of others. Measurement of the line extension shall be made from the end of the Company's facilities along the proposed route to the premises to be served. All line extensions are owned and maintained by the Company.

Qwest Corporation**WN U-40
EXCHANGE AND

2. Line extension charges to premises/locations where the company has previously extended facilities.

When an applicant or subscriber requests additional service and the existing facilities or service wires from the property line to the premises/location to be served are at capacity, the applicant or subscriber is required to provide any additional support structure for placement of the new facilities when necessary or pay the company line extension charges from the designated point on the property line to the premises/location to be served. The Company will designate the type of support structure to be used for placement of the facilities and will use existing support structure when the support structure meets the requirements set forth in 4.2.2.B.3.

B. Terms and Conditions

1. For the purposes of this Section the definition of applicant includes developers of real property.
2. An applicant may elect to furnish and set the required poles or provide a trench on their own property in accordance with the construction standards of the Company, in lieu of the applicable charges. For charges, see C., following. However, in all instances the ownership of facilities shall be entirely vested in the Company.

Qwest Corporation**WN U-40
EXCHANGE AND
NETWORK SERVICES
WASHINGTON****SECTION 4
Original Sheet 7****4. CONSTRUCTION CHARGES AND OTHER SPECIAL CHARGES****4.2 CONSTRUCTION CHARGES OUTSIDE THE BASE RATE AREA****4.2.2 LINE EXTENSION CHARGES****B. Terms and Conditions (Cont'd)**

3. It will be the Company's prerogative to designate the type of supporting structure required for the placement of outside plant facilities and service wires from the designated point on the applicant or customer property line to the premises to be served: trench, conduit, or pole.

The Company will only be required to use an existing support structure when it meets the following criteria:

- a. The supporting structure follows the same path as designated by the Company for the construction of new facilities;
- b. The supporting structure has sufficient capacity for the new facilities;
- c. The consumer has exposed the existing supporting structure for Company use;
- d. The structure meets current Company standards; or
- e. The consumer repairs the supporting structure to a level that meets Company standards.

4. Measurement of Distances

- a. Distances mentioned in this Section are route distances. The routing of line extensions will be determined by the Company.
- b. Where the proposed construction over private property is to be used to serve customers in general, or a private property routing is selected by the Company in lieu of routing on public roadways, the construction will be treated as being on public roadways.
- c. The charge for a fraction of a tenth of a mile will be determined on the basis of the ratio of the number of feet in question to the number of feet in a tenth of a mile.

Qwest Corporation**WN U-40
EXCHANGE AND
NETWORK SERVICES
WASHINGTON****SECTION 4
Original Sheet 8****4. CONSTRUCTION CHARGES AND OTHER SPECIAL CHARGES****4.2 CONSTRUCTION CHARGES OUTSIDE THE BASE RATE AREA****4.2.2 LINE EXTENSION CHARGES****B. Terms and Conditions (Cont'd)****5. Collective Application and Grouping of Applicants**

- a. When construction is required to serve a new applicant, a survey is made of all prospects who might be served from the new construction or an extension and those who might benefit by being included in the project. Allowances are made only for those prospects making valid applications for service.

EXCEPTION: Developers will be granted 1/10 mile free allowance for each development, even in the absence of an application for service.

- b. All applicants are grouped in a single project when there is no more than one mile of construction between successive applicants. Separate projects are established whenever the construction between any two consecutive applicants, exceeds one mile. Two or more projects are combined, whenever this results in lower charges (or no increase in charges) for the applicants in the preceding project.

6. Apportionment of Charges

Applicants are divided into two groups. The first group includes all applicants whose collective allowance equals or exceeds the construction required to serve them. No charge is made to such applicants. The second group includes all remaining applicants on the project.

The overall charge for the project is divided equally among all applicants in the second group.

No applicant is required to pay a higher charge than if the project were established on a stand-alone basis. Any difference between this charge and the average charge for the group is absorbed by the Company.

7. Lump Sum or Installment Payment

A customer's line extension charges may be paid in a lump sum or when mutually agreeable, in equal monthly installments for a term of eighteen months.

Qwest Corporation**WN U-40
EXCHANGE AND

WASHINGTON****SECTION 4
Original Sheet 9****4. CONSTRUCTION CHARGES AND OTHER SPECIAL CHARGES****4.2 CONSTRUCTION CHARGES OUTSIDE THE BASE RATE AREA****4.2.2 LINE EXTENSION CHARGES****B. Terms and Conditions (Cont'd)****8. Disconnects**

When one or more customers on a project disconnect within the eighteen month term, no refund is made to those who made a lump sum payment of the line extension charge.

Those making monthly line extension charge payments are required to pay an amount equal to the total of the monthly line extension charge payments for the unexpired life of the contract.

Charges to remaining customers are not affected by disconnects.

9. Reuse of Facilities

When a customer disconnects service or moves off the project and service is established for a new applicant at the same location, the new applicant may assume the line extension charge contract provided there is no lapse in charges, as follows:

- If the original customer was on the monthly payment basis, the new applicant is charged the same monthly payment for the remaining life of the contract. The original customer is relieved of any further responsibility for line extension charges on the project.
 - If the original customer prepaid the charge, the new applicant pays no charge. Any adjustment in charges is a matter for negotiation between the original customer and the new applicant.
10. Line extensions to provide service to an applicant engaged in temporary or speculative business, will be made on the condition that the applicant pays to the Company the total cost of the construction and removal of the line necessary in furnishing the service, less the salvage value of the materials used.
11. Contracts, covering periods not to exceed eighteen months of service, will be required by the Company as a condition prior to the establishment of the service, when line extensions are necessary.

WASHINGTON****SECTION 4
Original Sheet 12[1]****4. CONSTRUCTION CHARGES AND OTHER SPECIAL CHARGES****4.4 PROVISIONING AGREEMENT FOR HOUSING DEVELOPMENTS****A. Description**

A Provisioning Agreement for Housing Developments (PAHD) is a contractual arrangement between the Company and the Developer/Builder for the provision of distribution facilities, including conduit for the service lateral trench (from the pedestal to the living unit) within new areas of residential development.

B. Terms and Conditions

1. A PAHD is required where Developers/Builders plan to develop four or more lots. Less than four lots will be treated according to the terms set forth under other portions of this Section 4, if applicable.
2. The Developer/Builder will provide trench and backfill for the facilities and be responsible for those costs. In areas where the Company has trench and backfill agreements with other utilities, the Developer/Builder is responsible for the Company's trench and backfill cost.
3. To accommodate Developer/Builder coordination schedules, with the Company's approval, the Developer/Builder has the option of placing Company provided facilities in the trench.
4. The PAHD will include, but is not limited to: a description of the development; an addressed, recorded plat; trench and backfill specifications; easements; surface grade requirements; and coordination of inspection schedules.
5. The Developer/Builder will be responsible for the provision of the service lateral trench to the living unit. If the Developer is not the Builder, the Builder will be responsible for the provisioning of the trench.
6. The Developer or Builder will be responsible for placing a one inch conduit with adequate pull string for the service drop to the living unit. The conduit will be provided by the Company.
7. The Company will provide the facilities at no charge to the Developer/Builder as long as the cost does not exceed the company established cap, which shall equal the distribution and drop portion of the average exchange loop investment, times the number of lots in the development. The Company may require payment by the Developer/Builder of all costs in excess of the cap prior to the start of any required construction.

Re: Docket UT-061625 – Petition for AFOR
*WA Catalog No. 2 for Informational Purposes in Connection
with Compliance Filing No. 3639T*

Dear Ms. Washburn,

Enclosed please find one original and five (5) hard copies of Qwest's revised *WA Catalog No. 2* including clean and red-lined versions of the documents. These documents are provided for informational purposes.

Due to the voluminous nature of the Catalog, we have enclosed a CD containing pdf copies of the Catalog documents in lieu of electronic filing.

One copy of the CD will be sent to all parties of record. In addition, hard copies will be sent via messenger to Public Counsel and Commission Staff.

Sincerely,

Mark Reynolds

MSR/jlr
