This filing is to comply with the Order by revising the attached electric tariff sheets to reflect the form and rates authorized by paragraphs 16, 34, 42 and 43 of the Order. This compliance filing removes \$22.7 million of estimated indirect costs associated with Climate Commitment Act (“CCA”) impacts on resource dispatch from the 2024 Power Cost Update. Additionally, this filing includes a \$0.9 million reduction to 2024 power costs to account for Demand Response PPA benefits.

The overall impact of this filing is an increase of 6.06 percent in overall rates from their current level. The typical residential customer using 800 kWh per month will experience an increase to their monthly bill of \$6.30 or 6.19 percent. Bill assistance programs are available to qualified customers who need help with their energy bills. PSE customers can go to <http://www.pse.com> or call 1-888-225-5773 (TTY: 1-800-962-9498) to learn if they are eligible. Payment plans are also available.
