**Re: Docket UE-131883  
Distributed Generation Annual Report**

Dear Mr. King:

Attached is Puget Sound Energy's ("PSE's") State Tax Incentive Annual Report and Net metering Report six-month Update dated February 1, 2017, filed pursuant to the Commission's letter dated May 20, 2016 in the above-referenced docket.

The report includes information on state tax incentives for distributed generation (RCW 82.16.110-130) paid by PSE during the reporting period of July 1, 2015 to June 30, 2016. This report also includes an update on the total number of new net metered and non-net metered system installations by technology between May 1 and October 31, 2016, and the total nameplate and average capacity of those newly installed systems.

The Commission also requested that utilities provide any communication sent to all participants or applicants regarding the administration of the incentive program for the last fiscal year, or current fiscal year. In response, PSE has included in this filing three communication pieces sent to program participants during the required reporting period(s).
