EnergyEfficiency Services

Due to the nature of the organizations holding these types of expenditure, FERC requires that we obtain a letter from each vendor detailing how our contribution to their organization is used and EES staff is required to provide background information by completing the following questions. We need business case and/or justification for this type of expenditure. We are primarily looking for lobbying, as it is BTL. The rest of the costs can remain ATL.

1. Provide a brief explanation of this membership, sponsorship, donation, due, contribution (etc) and how it relates to EES.

Answer -

2. Why are we providing support or contribution to this organization?

Answer -

3. What are we doing with this membership, sponsorship, donation, due, contribution (etc)?

Answer -

4. Why incur this type of expense instead of purchasing a booth/space (cost less)?

Answer -

5. How does this membership, sponsorship, donation, due, contribution (etc) benefit ratepayers?

Answer -
