Dear Washington UTC,

WHEN THE LAST REDMAN  
HAS VANISHED FROM THE EARTH,  
AND THE MEMORY IS ONLY THE SHADOW  
OF A CLOUD PASSING OVER THE PRAIRIE,  
THESE SHORES AND FOREST WILL  
STILL HOLD THE SPIRITS OF MY PEOPLE,  
FOR THEY LOVE THIS EARTH AS  
THE NEWBORN LOVES ITS MOTHER'S HEARTBEAT.....

CONTINUE TO CONTAMINATE YOUR BED,  
AND YOU WILL ONE NIGHT SUFFOCATE  
IN YOUR OWN WASTE,  
WHEN THE BUFFALO ARE ALL SLAUGHTERED,

THE WILD HORSES ALL TAMED,  
THE SECRET CORNERS OF THE FOREST  
HEAVY WITH THE SCENT OF MEN,  
AND THE VIEW OF THE RIPE HILLS  
BLOTTED BY TALKING WIRES,  
WHERE IS THE THICKET? GONE.  
WHERE IS THE EAGLE? GONE.  
AND WHAT IS IT TO SAY GOODBYE  
TO THE SWIFT AND THE HUNT?  
THE END OF LIVING  
AND THE BEGINNING OF SURVIVAL...  
"CHIEF SEATTLE 1855"

I am writing to ask the Utilities and Transportation Commission to not allow Puget Sound Energy (PSE) to build new gas power plants for their long-range electricity plan and to reduce their use of gas for the long-range gas plan.

According to the International Panel on Climate Change (IPCC), natural gas is far more damaging to the climate than previously thought. Gas may be as bad as coal for the climate. And natural gas certainly is not "natural" when the impacts of hydraulic fracturing or "fracking" to extract gas is poisoning groundwater in communities across the country.

Our new 100% clean electricity law -- the Clean Energy Transformation Act (CETA) -- requires all utilities to be 80% fossil fuel free by 2030 and 100% by 2045. The last thing we need to do is build new gas power plants that would be around for decades. The intent of CETA is to wind down on gas power in our electricity, not ramp it up.

Our new state law that establishes science-based fossil fuel reductions that come from the IPCC, call for 95% reductions by 2050 and 70% reductions by 2040. Yet PSE's long-range plan for its gas utility shows virtually no reductions for the next 20 years. PSE fails to follow recommendations in Washington's new State Energy Strategy that identifies moving buildings from gas to electricity as a key strategy for climate protection.

Enough is enough. PSE must take climate change seriously before it is too late. Please reject PSE's electricity and gas plans.

Sincerely,

Darcy Johnson
