To Cresta

Account # NE 16022-01

LG 160209

I feel that Cresta should follow the same financial measures that a home owner has to follow. Save your money until a large costly item would be affordable. Or at least have 75-80% of needed money in the bank.

They just got a raise a few months ago, but those on \$57 didn't get any this year, and most likely not next year either. So where does Cresta

think the extra money would
be ~~realized~~ & ~~it~~ just
doesn't materialize out of
the blue.

So please don't give
them any more money
that just goes to wages
and costly benefits.

Thank you!
Derek Korman
