Ref. UT-051247

2009 JUN 12 AM 8:08  
STATE OF WASHINGTON  
UTILITIES AND TRANSPORTATION  
COMMISSION

To whom it may concern:

Enclosed for the Commission's file is a verified copy of Amendment 46 to a Telecommunications Service Agreement between Verizon Services Organization Inc., on behalf of Verizon telephone operating companies, including Verizon Northwest Inc., and MCI Communications, Inc. The footer notwithstanding, the companies are not seeking confidential treatment of this document.

Please call me at 360-536-5062 if you have any questions.

Very truly yours,

Sumeer Singla  
Director  
Public Affairs, Policy & Communications

Enclosure

VERIFICATION OF AFFILIATED INTEREST AGREEMENT

I verify that the enclosed is a true copy of Amendment 46 to a Telecommunications Service Agreement between Verizon Services Organization Inc., on behalf of Verizon telephone operating companies, including Verizon Northwest Inc., and MCI Communications, Inc.

Sumeer Singla Date: 6/10/09

Sumeer Singla  
Director  
Verizon Northwest Inc.

AMENDMENT 46  
TO THE  
TELECOMMUNICATIONS SERVICES AGREEMENT  
BETWEEN  
VERIZON SERVICES ORGANIZATION INC.  
AND  
MCI COMMUNICATIONS SERVICES, INC.

This Amendment 46 to the Telecommunications Services Agreement (Contract No. TSA010302-1) (Agreement) by and between MCI Communications Services, Inc. d/b/a Verizon Business Services, a Delaware corporation, with offices at 6929 N. Lakewood Avenue, Tulsa, Oklahoma 74117 ("Provider"), and Verizon Services Organization Inc., a Delaware corporation, with offices at 6665 N. MacArthur Boulevard, Irving, Texas 75039 ("Customer") shall be effective on the date set forth below.

1. EFFECTIVE DATE

This Amendment 46 shall be effective on the first (1<sup>st</sup>) day of the second full billing cycle following full execution by both parties. Notwithstanding anything to the contrary contained in this Agreement, the term of this Agreement and the other terms and conditions hereof, are subject to applicable law and regulatory approval. Accordingly, although this Amendment is executed by both Parties, to the extent that any state statute, order, rule or regulation or any regulatory agency having competent jurisdiction over one or both parties to this Agreement, shall require that this Amendment or any subsequent amendment be filed with or approved by such regulatory agency before the amendment may be effective, the Amendment shall not be effective in such state until the first business day after such approval or filing shall have occurred.

2. REGULATORY APPROVAL

This Agreement is subject at all times to any statute, order, rule, or regulation or any state or regulatory agency having competent jurisdiction over one or both of the parties hereto or the services provide hereby. Verizon and Customer agree to cooperate with each other and with any applicable regulatory agency so that any and all necessary approvals may be obtained. During the term of this Agreement, the parties agree to continue to cooperate with each other in any review of this Agreement including subsequent amendments by a regulatory agency so that the benefits of this Agreement or such amendment may be achieved. If any such agency accepts this Agreement or any amendment in part and rejects it in part, or makes a material modification to the Agreement or amendment as a condition of its approval, either party may terminate the Agreement or Amendment in its entirety without penalty or liability.

3. AGREEMENT MODIFICATION

4.1 REPLACE Section 43, PRIVATE INTERNET PROTOCOL (IP) ACCESS Service, to Exhibit C (as originally added by Amendment 22) in its entirety with the Section 43 described in Attachment 1.

4.2 REPLACE Attachment C-21, PRIVATE INTERNET PROTOCOL (IP) ACCESS Service Pricing, (as originally added by Amendment 22) in its entirety with the Attachment C-21 described in Attachment 2.

4. OTHER TERMS AND CONDITIONS

Except as specifically amended herein, the terms and conditions of the Agreement, including any Amendments thereto, shall remain in full force and effect during the term of the Agreement.

IN WITNESS WHEREOF the parties have entered into this Amendment 46 as of the date set forth above.

MCI COMMUNICATIONS SERVICES, INC.

VERIZON SERVICES ORGANIZATION INC.

(REPLACE SECTION 43 TO EXHIBIT C AS SET FORTH BELOW)

#### 43. PRIVATE INTERNET PROTOCOL (IP) ACCESS SERVICE

43.1 Scope Provider agrees to provide private Internet Protocol (IP) service, which is Internet Protocol networking using multi-protocol label switching (MPLS) technology through a private Internet Protocol, Frame Relay or Asynchronous Transfer Mode (ATM) access port and is billed on Verizon's WIN billing platform (hereinafter referred to as "**Option 1 PRIVATE IP Service**"). For each location requiring connectivity to Verizon's Private IP network (the "**PIP Network**"), Option 1 PRIVATE IP Service includes Local Access and a port connection or access (hereinafter referred to as a "**Network Node**") as well as the PVC(s) assigned to such Network Node. The bundled port speeds and committed access rate speeds available with Option 1 PRIVATE IP Service are reflected on the Schedules attached hereto.

43.2 Classes of Service. Verizon offers the following classes of Option 1 PRIVATE IP Service:

43.2.1 "**Standard Service**" consists of a port that supports non-real time transactional/standard data and general business needs. The Standard Service port is provisioned with a bundled committed access rate ("**CAR**") set by Verizon at the DiffServ Control Point (DSCP) 24 (also referred to as IP Precedence 3).

43.2.2 "**Enhanced Traffic Management Service**" or "**ETM Service**" is a more advanced class of service ("**CoS**") offering that supports six (6) Customer-defined traffic priority classes: "*Real Time/Voice*", "*Video/Priority Data*", "*Mission Critical Data*", "*Transactional Data*", "*General Data*" and, "*Default*".

The traffic priority classes for ETM Service are based either on (i) the Internet Engineering Task Force Differentiated Services Code Point (DSCP) settings or, (ii) IP precedence settings that Customer applies to the Type of Service ("**ToS**") byte in the IP header of their IP traffic. ETM Service requires the purchase of both a bundled PIP port and EF-Real Time Committed Access Rate (CAR). In order to use ETM Service, either the DSCP or IP precedence must be set by Customer premises equipment before the traffic leaves Customer's premises. When PIP congestion occurs, the ETM CoS configuration gives Real Time/Voice traffic precedence over Video/Priority traffic; Video/Priority traffic precedence over Mission Critical traffic; Mission Critical traffic precedence over Transactional Data traffic; Transactional Data traffic precedence over General Data traffic; and, General Data traffic precedence over Default traffic.

The PIP port and EF Real Time CAR bandwidth will be maintained regardless of the traffic type. Real Time/Voice traffic that is delivered to the PIP network in excess of the subscribed EF-Real Time CAR level will be dropped. The Verizon PIP network will deliver all other traffic (i.e., Video/Priority Data traffic, Mission Critical Data traffic, Transactional Data traffic, General Data traffic and Default Traffic) at a rate up to the ordered PIP port speed less the rate of the EF-Real Time CAR.

43.3 Local Access Service. Upon Customer's request, Verizon will provide provisioning and the initial testing of an interconnection between Option 1 PRIVATE IP Service provided by Verizon and Customer's End User's designated termination point and/or service ("**PIP Local Access Service**"). Recurring charges for PIP Local Access

Service shall be established upon Verizon's acceptance of a Service Order. Nonrecurring charges, including Verizon's local access coordination fee, are set forth on Schedule PIP-4 and Schedule PIP-5. Unless Customer notifies Verizon that it will be responsible for PIP Local Access Service, Verizon shall be responsible for the ordering, installing, provisioning, testing and maintenance of all PIP Local Access Service. Any third party charges, including but not limited to charges from local access providers, incurred by or charged to Verizon in connection with the provision of Option 1 PRIVATE IP Service shall be Customer's responsibility.

**43.4 Post-Implementation Trouble Management.** Following the activation of Option 1 PRIVATE IP Service, Customer will be fully responsible for any maintenance and management of Customer's network. Customer may enter into separate agreements with Verizon to assist in such maintenance and management. In such case, Verizon is limited to assisting with the following activities:

43.4.1 Clearing any troubles within the PIP Network up to the point of demarcation between Customer's site and the PIP Network. Verizon may request that Customer make available to Verizon the router vendor or a qualified Customer employee for the purpose of trace route testing. If Customer has ISDN PRI service from Verizon to interoperate with their PRIVATE IP service, the vendor or qualified Customer employee must have technical expertise to include knowledge of ISDN D channels, ISDN layers 1, 2 and 3, ISDN circuit configurations on Customer Gateway Router and advanced telephony principals.

43.4.2 Providing Customer with additional copies of the original router configuration at the time implementation was completed and Option 1 PRIVATE IP Service was handed off to Customer. Verizon may request Customer to provide temporary out of band access to Customer's router for the purposes of restoring router configuration to its original state at the time implementation was completed and Option 1 PRIVATE IP Service was handed-off to Customer.

**43.5 Customer's Responsibilities.**

43.5.1 Customer is responsible for obtaining, installing, and maintaining all equipment, software, wiring, power sources, telephone connections and/or communications services (collectively referred to as "**Facilities**") necessary for inter-connection with any Verizon network or otherwise for use in conjunction with Option 1 PRIVATE IP Service. Customer is responsible for ensuring that such Facilities are compatible with Verizon's requirements and that they continue to be compatible with subsequent revision levels of Verizon-provided equipment, software and services. Verizon is not responsible for the availability, capacity and/or condition of any Facilities not provided by Verizon. Customer shall obtain and hereby grants to Verizon all licenses, waivers, consents, or registrations necessary to deliver, install, and keep installed at Customer's site the Verizon equipment.

43.5.2 Customer shall, at its own expense, take all reasonable physical and information systems security measures necessary to protect all equipment, software, data and systems located on Customer's premises or otherwise in Customer's control and used in connection with PRIVATE IP Service, whether owned by Customer, Verizon, or Verizon's subcontractors. Customer

acknowledges and agrees that Verizon is not liable, either in contract or in tort, for any loss resulting from any unauthorized access to or alteration of, theft, destruction, corruption, or use of, Facilities used in connection with Option 1 PRIVATE IP Service.

43.5.3 Customer agrees to provide Verizon and its subcontractors and their respective employees and agents access to Customer's sites where any Option 1 PRIVATE IP Service is provided (including access to associated equipment) as necessary for Verizon and its subcontractors to maintain Option 1 PRIVATE IP Service.

43.5.4 Customer agrees to furnish to its Verizon account representative all information necessary for Verizon to provide Option 1 PRIVATE IP Service to Customer.

43.6 Verizon's Charges for Option 1 PRIVATE IP Service.

43.6.1 Customer's monthly recurring, non-recurring and ancillary charges for "new" and existing Domestic Option 1 PRIVATE IP Service (i.e., Option 1 PRIVATE IP Service currently installed or installed on or after the Effective Date of Amendment 46) are set forth on Attachment C-21. If Customer uses a Verizon Frame Relay or ATM port to access Option 1 PRIVATE IP Service and continues to receive Frame Relay or ATM service through such port, Customer will be charged for the port under the terms and conditions applicable to Customer's Frame Relay or ATM Attachment and will not be charged a separate port charge pursuant to this Attachment. If shared Frame Relay or ATM ports are used, shared Option 1 PRIVATE IP Service is implemented by ordering a PIP (Silver Shared) Connection CAR for Standard Service, or a PIP Connection CAR and an EF-Real Time CAR for ETM Service as described in the Schedules.

43.6.2 Following the expiration of a Private IP Service Commitment Period, Verizon may modify Customer's Option 1 PRIVATE IP charges upon at least ninety (90) days' prior written notice to Customer. Verizon also may modify or eliminate Option 1 PRIVATE IP Service offerings or features upon ninety (90) days prior written notice to Customer. In such event, Customer may terminate Option 1 PRIVATE IP Service without incurring cancellation or other termination liability (other than payment for Option 1 PRIVATE IP Service provided through the effective date of termination) by providing written notice to Verizon at least thirty (30) days prior to the effective date of such modification.

43.7 Discounts for Option 1 PRIVATE IP Service. With respect to Option 1 PRIVATE IP Service, Customer's monthly port and CAR charges will be subject to a fifty percent (50%) discount.
