Subject: US Moorings Project Area Phase 2 Pre-Design Investigation Daily Progress Report, June 10, 2023

Hunter,

The following is the June 10, 2023, daily progress report for the pre-remedial design investigation being conducted at the US Moorings Project Area in accordance with the *Final Revised First Phase Pre-Remedial Investigation Data Summary Report and Second Phase Pre-Design Investigation Work Plan* (Second Phase PDIWP) (Anchor 2023) dated June 6, 2023. This was the second day of the investigation. This concludes the surface sediment sampling component part of the Second Phase PDIWP. Subsurface coring will start on June 19, 2023 and daily report will start again then.

Personnel On Site

- Sasha Norwood, Jilong Lin, and Emily DeVore (Anchor QEA, LLC); Dale Dickinson, Tim Thompson (MSS)
- Oversight: None
- Visitors: None

Surface Sediment Sampling Program

The following surface sediment locations were sampled:

- USMPDI-088 (3 total attempts; three attempts with more than 8 inches of recovery accepted and composited per the Second Phase PDIWP)
- USMPDI-089 (6 total attempts; two attempts with more than 8 inches of recovery and one attempt with 7 inches of recovery accepted and composited per the Second Phase PDIWP)

Health and Safety

USMS0038171

No reportable incidents
