Response to WUTC Data Request 57

The Company objects to this question as unduly burdensome, because this information is more readily available from public documents, and also objects to the extent it request a legal opinion on the application of Commission orders to evidence in this proceeding. Notwithstanding those objections, the Company responds as follows:

Please refer to WUTC v. PacifiCorp, d/b/a Pac. Power & Light Co., Docket Nos. UE-230172 and UE-210852 (Cons.), Order 08/06 (Mar. 19, 2024), where the Commission approved several PacifiCorp rate proposals, that are similarly reflected in the CEIP Biennial Update.
