Ms. Carole Washburn
Washington Utilities and Transportation Commission
P.O. Box 47250
1300 S. Evergreen Park Drive Southwest
Olympia, WA 98504-8002

Re: Docket Nos. UE-920860
and UE-030077:

In the Matter of the Application of PACIFICORP for authority to (1) borrow the proceeds of not more than \$150,000,000 of Pollution Control Revenue Refunding Bonds to be issued by various Counties, (2) enter into such agreements or arrangements with the Counties and with other entities as may be reasonably necessary to effect the borrowings and to provide credit enhancement for the Refunding Bonds, including the issuance of First Mortgage and Collateral Trust Bonds, and (3) replace or modify from time to time the credit enhancement arrangements supporting the Refunding Bonds.

Dear Commissioners:

PacifiCorp (the "Company") submits the following supplemental information with respect to the above-referenced dockets. The Company believes that no further Commission action is required in connection with this matter.

The Company is currently in discussions with the following issuers, various underwriters and remarketing agents with respect to the following series of Pollution Control Revenue Refunding Bonds (collectively, the "PCRB Series") that were issued pursuant to the order issued by the Commission on August 19, 1992 in the first above-referenced docket:

| <u>Issuer</u> | <u>PCRB Series</u> | <u>Aggregate Principal Amount</u> | <u>Current Stated Maturity</u> |
|-------------------|--------------------|---------------------------------------|------------------------------------|
| Converse County | Series 1992 | \$22,485,000 | July 1, 2006 |
| Sweetwater County | Series 1992A | \$ 9,335,000 | April 1, 2005 |
| Sweetwater County | Series 1992B | \$ 6,305,000 | December 1, 2005 |

The Company is proposing to extend the maturity date of each PCRB Series to a date not later than the date or dates for which the Company will obtain an independent engineer's certificate verifying the economic life of the respective qualifying facilities. The application in the first above-referenced docket stated that the "[m]aturity [of the PCRB Series] will be determined

Washington Utilities and Transportation Commission
February 14, 2005

based upon an engineer's certificate verifying the economic life of the qualifying facilities." The supplemental application in the second above-referenced docket also contemplated the extension of the maturities of the PCRB Series "consistent with the economic lives of the Facilities." The Company expects to receive new independent engineers' certificates that will enable the Company to extend the maturities of the PCRB Series by up to 20 years.

The Company expects to complete the above-described transactions by the third week of March 2005. If the Commission or its staff has any questions about these transactions, please contact me at (503) 813-5662.

Your attention to this matter is appreciated.

Sincerely,

A handwritten signature in cursive script that reads "Bruce N. Williams".

Bruce N. Williams
