SCHEDULE NO. 3
FIRE HYDRANT SERVICE

Available

Within the limits of all Water service Areas and at utility's option and capacity to maintain Department of Health standards of quantity.

Applicable:

Applicable to all water users whose home or property is located within a 500 foot radius of a utility fire hydrant. (C)

Conditions:

The charge for this service is not subject to cancellation or reduction for seasonal or temporary periods, unless seasonal rates apply per this tariff. This charge will be the monthly minimum bill for this class of service.

Monthly Rates:

\$1.00 per month in addition to all other applicable charges for water service.

FIRE HYDRANT SERVICE, COMMERCIAL

Available

Within the limits of all Water service Areas and at utility's option and capacity to maintain Department of Health standards of quantity.

Applicable:

Applicable to all water users requesting the use of a 3" hydrant meter to be affixed to a company fire hydrant.

Conditions: All commercial users of water through a company hydrant must complete an application prior to receiving a meter and must agree to take water from assigned locations and quantities as specified by the company.

Rates: A deposit of \$700.00 must be made prior to use, and is refundable upon return, when returned in satisfactory condition.

Minimum Charge: \$25.00 per week.

Usage Charge: \$1.50 per 100 cubic feet for all water consumed.

Issued: November 1, 2006 Effective: December 1, 2006

SCHEDULE NO. 12
CROSS CONNECTION CONTROL

Applicable

To all customers served by the Utility for purposes of assessing the presence of cross connections and additional requirements applying to those customers that have cross connections.

Rate:

Site Visit Charge	- \$15.00 plus
Premises Inspection Charge	- \$25.00 per hour prorated for time spent
Installation of Approved Backflow Prevention Assembly	- Time and Materials

Conditions:

1. This schedule is established pursuant to the requirements adopted by the Washington State Department of Health in WAC 246-290-490, as it now exists or is hereafter amended or replaced. Copies of this regulation are available from the Washington State Department of Health or from the Utility.
2. All customers shall be surveyed as to the existence of cross connections pursuant to the definition of cross connections established by the Washington State Department of Health. A second survey shall be sent to those customers who fail to respond to the initial survey. If the customer fails to respond to the second survey, then the following non-response options may be necessary and the customer will be charged pursuant to the rate(s) set forth in the rate section above. For new customers, a survey will be required as part of the application prior to accepting the applicant as a customer.

SCHEDULE NO. 12
CROSS CONNECTION CONTROL (cont'd)

Non-Response Options

- a. Site Visit letter/appointment for on-site review of cross connection potential, followed by a Site Visit for determination of cross connection potential as defined in WAC 246-290-490. The customer will be assessed the charges set forth in the rate section above.
 - b. Installation of Approved Backflow Prevention Assembly at customer's expense or as set forth in the rate section above.
 - c. Notice of disconnection of service per WAC 480-110-355 (3a).
3. An on-site inspection is required for every customer meeting any criteria of WAC 246-290-490 (4b) Table 9. The customer will be assessed the appropriate charges set forth above.
4. If a cross connection is detected or is reported by the customer, then the Utility will determine the appropriate remedy and notify the customer of the remedy, options, and dates for compliance. If an Approved Backflow Prevention Assembly is required, the Utility will determine the type of Approved Backflow Prevention Assembly that must be installed, and must provide the customer with a date by which the device must be installed. Installation will be the customer's responsibility and sole expense. The customer may choose to have the Approved Backflow Prevention Assembly installed through any contractor acceptable to the Utility. If the customer does not install the appropriate Approved Backflow Prevention Assembly within thirty days of notification, the Utility may take appropriate action to correct. This may include the Utility installing an Approved Backflow Prevention Assembly at customer's expense if tariffed or may result in the Utility providing a notice of disconnection of service by the date specified in the notice. The Approved Backflow Prevention Assembly will be installed on a customer's side of the service connection.

SCHEDULE NO. 12
CROSS CONNECTION CONTROL (cont'd)

5. If the customer has an Approved Backflow Prevention Assembly installed the assembly must be tested annually by a certified Backflow Assembly Tester (BAT) specialist. The Utility will maintain a list of certified BAT specialists that are acceptable to the Utility and the customer may choose from any such BAT specialist on the Utility's list. The customer will provide a copy of the acceptable annual report from the BAT specialist. If the annual report is not provided within thirty days of the anniversary date of the installation of the Approved Backflow Prevention Assembly, then the Utility will provide a notice of disconnection pursuant to WAC 480-110-355 (3a). If a copy of the annual report is not received by the date for disconnection as specified in the notice, the Utility will disconnect customer's service.
6. No less often than every three years, the Utility shall re-survey its customers concerning the existence of cross connections. If the customer does not respond to the initial survey, a second survey will be sent. If the customer does not respond to the second survey, then non-response options listed in paragraph 2 will apply.
7. For each customer meeting any criteria of WAC 246-290-490 (4b) Table 9, no less than every three years, the Utility shall conduct a site visit, premises inspection and shall assess the customer the charges set forth in the rate section above.
8. When necessary, the Utility will provide notices of disconnection as required in WAC 480-110-355 (3a).
9. The Utility may immediately shut off water service if a public health emergency exists, including when a backflow is occurring, or an unprotected cross-connection with sewage, or an unapproved water source exists.
