RE: Town of Garfield
Docket TR-080783
USDOT: 058607N
UTSC: 52C49.20

Dear Kathy:

Please be advised after further consultation with our engineers Progressive Engineering and our Transportation Improvement Board Project Manager, Gloria Bennett, we are proposing the following changes to UTC Docket TR-080783:

1. Deletion of subgrade excavations and stabilization
2. Deletion of the precast concrete panels and rubber fillers
3. Deletion of the requirement to replace the rails.
4. Work to be performed by town forces will include:
 - a. extension of the interior rails at the crossing
 - b. extension of the asphalt surfacing as necessary to provide a walkway across the tracks that is the same width or greater than the width of the sidewalk leading to the railroad track crossing

Thank you for your time and consideration of the above-referenced changes.

Sincerely,

Jarrod Pfaff
Mayor
Town of Garfield
