TO ALL INTERESTED PERSONS:

The Washington Utilities and Transportation Commission (Commission) will accept comments on Avista Corporation's (Avista or Company) integrated resource plan for electric service. An "integrated resource plan" (IRP or Plan) describes the mix of generation and supply resources and efficiency improvements that will meet both the current and future energy demands at the lowest reasonable cost to the utility and its ratepayers.

The Commission will review Avista's integrated resource plan for electric service at an open public meeting on January 9, 2014. Avista representatives will present the Plan to the Commission and respond to questions from the Commissioners and the public at a recessed open meeting of the Commission to be held **on Thursday, January 9, 2014, at 9:00 a.m.** The meeting will be held at the Commission's headquarters, Room 206, Richard Hemstad Building, 1300 S. Evergreen Park Drive S.W., Olympia, Washington.

A copy of the IRP is on file in the library at the Commission's offices in Olympia, and on Avista's website at https://www.avistautilities.com/inside/resources/irp/electric/Documents/Avista_2013_Electric_IRP_Final.pdf. Requests for copies of the Plan should be directed to Avista.

Written comments should be submitted **no later than 5:00 p.m., Friday, December 6, 2013**, and, if possible, in electronic format. Electronic format should be on a CD or 3 ½ inch IBM formatted high-density disk, in .pdf Adobe Acrobat format. Please also send us the text in your choice of .doc (Word 97 or later) format labeled with the docket number assigned to the integrated resource plan (UE-121421) and the commenter's name and type of software used. Comments may also be submitted via the Commission's Web portal at www.utc.wa.gov/e-filing or by electronic mail to the Commission's Records Center at records@utc.wa.gov. If you choose this means of submitting comments, please include all of the information requested above for the diskette label.
