

Safety Valve Request

1. Date of request

1/7/13

2. Location of service and reason for the specific request.

3. Quantity of TNs required and any existing TNs that will be returned.

4. Date requested for TNs to be available for service and the date they will actually be used.

We need them in the next 30 days and will begin using them as soon as we have them.

5. Customer specific TN range requirements, and why those ranges are needed.
