RE: American Moving Inc., Request for Mitigation of Penalty Assessment

Docket TV-130961

To Whom it May Concern: Our company did not do business in the state of Washington in 2012. We have obtained our temporary authority but were still in the process of obtaining our permanent authority. We notified the inspectors that came to our location in June 2013 of this. There were still some things we needed to do to be in compliance for the state of Washington. This is why there was no report filed. I didn't realize we needed to do one if we weren't doing business over there.

Thank you for your attention to this matter.

Sarah Lasher
