

- 4 WAC 480-07-110 allows the Commission to grant an exemption from or modify the application of its rules if consistent with the public interest, the purposes underlying regulation, and applicable statutes. See also WAC 480-70-051.
- 5 Commission Staff reviewed the proposed tariff revisions together with other factors and recommends the Commission allow the tariff to become effective by operation of law, and grant the Company's request for an exemption from WAC 480-07-520, work paper filing requirements for this filing for the following reasons:
- (a) There have not been any significant changes since the last rate case that became effective on August 1, 2012. Reviewing the rate case documents, customer numbers are relatively unchanged, inflation has been low, and the Company has not changed its collection methods.
 - (b) The increased yard waste disposal fees are set by Cedar Grove Composting, Inc. and are required as a part of the Company's operations.
 - (c) The Company's financial information supports the proposed revenue requirement and the proposed rates.
 - (d) Staff concluded the proposed rate increase, by reason of the increase in yard waste disposal fees, is fair, just, and reasonable.
