Subject: (WA) 206-253-360-425 NPA Reminder Notice of May 28th Meeting to Review Overlay Scenarios for Relief Planning

## NANP Administration System

This is a reminder notice that at the request of the Washington Utilities and Transportation Commission (UTC) staff, NANPA will conduct an industry meeting on May 28, 2015, to obtain industry feedback on two NPA Overlay scenarios for the state of Washington. This notice was posted to the NAS-NANP Notification System (NAS-NNS) web site on May 26, 2015 and is now available for download. Please go to [www.nanpa.com](http://www.nanpa.com) and click on NAS Login. A Username and Password are required for NAS Login to access this document.

Attached to the notice are an agenda, a list of the two overlay options, a CO Code Summary Report and a Pooling Statistics Report are attached. The UTC staff wishes for industry comment on new NPA overlay options that would best fit the number exhaust relief needs for the 206, 253, 360, and 425 NPAs.

The UTC staff will use this meeting as the foundation of their recommendation to the Commission on going forward with area code relief in western Washington. The purpose of this call is to solicit Industry input on the overlay options and to discuss the impacts of each one. This call is intended as an informal means for the Industry to assist the UTC staff recommendation to the Commission considering relief along with any service provider concerns. No final decisions will be made during this meeting; however meeting notes will be published. Details of this conference call on May 28, 2015 are as follows and we hope that you will be able to attend:
