First Revision to Sheet No. R10.3	Rule 10	General Rules and Regulations - Billing
Original Sheet No. R10.4	Rule 10	General Rules and Regulations - Billing

The purpose of this filing is to modify the Company’s existing tariffs to align with the new corrected billing rules, which were approved earlier this year as part of Docket U-144155. The proposed tariff revisions have no impact on rates. Pacific Power is providing notice of the proposed tariff change concurrent with this filing in accordance with WAC 480-100-193(1). The Company respectfully requests an effective date of August 19, 2016.

Summary of Proposed Tariff Revisions

Rule 1 - Definitions

The Company is proposing to add definitions for the terms “Meter Failure or Malfunction” and “Unassigned Energy Usage Meter” to align with the definitions in WAC 480-100-178(5)(b)(i) and WAC 480-100-178(5)(ii) respectively.

Rule 10 - Billing

The Company is proposing to rename Section D from “Adjustment for Billing Error” to “Corrected Bills” to mirror the title of WAC 480-100-178(5).

The Company is also making clarifying edits to the format of the rule by listing the requirements for corrected bills related to overbilling and underbilling separately.

These changes include:

- 1) Adding a subsection to address the requirements for corrected bills related to overbilling, as stated in WAC 480-100-178(a).
- 2) Adding a subsection to address the requirements and exceptions for corrected bills related to underbilling, as stated in WAC 480-100-178(5)(a). This subsection will also include the exceptions outlined in WAC 480-100-178(7)(a) and (b).
- 3) Adding a subsection to confirm the information that will be provided to customers when a corrected bill is issued, as outlined in WAC 480-100-178(6).
