("Order 07"). Schedule 140 includes a mechanism for adjusting rates, both up and down, to pass through the cost of property taxes that PSE actually pays.

Schedule 140 provides that PSE must file revisions on or prior to April 15 for rates to be effective on May 1 of each year. To allow adequate time for Commission Staff's review, PSE and Commission Staff have verbally agreed to adjust the timing. Consistent with the adjusted timing, this initial filing is being made a minimum of 30 days prior to the effective date with an estimate of the current year taxes. In addition, a subsequent filing will be made as close to April 15 as possible, that will update the estimates to actual amounts.

Overall, this proposal represents an average decrease of 0.08% in overall bills for all customers and a \$1.8 million decrease in revenue. For example, the typical residential customer using 900 kWh per month would not experience a change in their monthly bill.

WAC 480-100-194 provides that the published notice informing customers of proposed increases be provided at least thirty days prior to the effective date, which is prior to the date when the actual amount of the property taxes will be known, as discussed above. This filing represents a decrease in rates so no notice is required. However, due to the process adjustment discussed above, PSE will provide notice of this filing in conjunction with notice regarding all other filings with May 1, 2017, requested effective dates. PSE will provide notice of the filings with May 1, 2017, requested effective dates through a published notice as provided in WAC 480-100-194(2) on or prior to March 31, 2017.

The tariff sheets described herein reflect issue dates of March 31, 2017, and effective dates of May 1, 2017. Posting of proposed tariff changes, as required by WAC 480-100-193, is being made by posting the proposed tariff sheets on the PSE web site immediately prior to or coincident with the date of this transmittal letter.
