Subject: Support for PSE Electric Vehicle Outreach and Pilot Project Plan
Date: Thursday, November 15, 2018 4:40:12 PM

I support these first steps by PSE to help electrify our transportation system and reduce carbon emissions. As both an elected official working to reduce municipal carbon emissions and an EV car owner, these are much needed programs. I encourage larger and more comprehensive programs of this nature in the near future. Charging networks are essential for making this reduced carbon transportation model work. I am pleased to see PSE taking leadership here. I encourage the DCU to approve these programs quickly. I hope we can partner with and support these pilot programs from PSE.

Michael
