Toledo	UT-200773	Build to new locations	\$ 364,752
Five Companies Subtotal			\$ 921,838
Eighteen Companies Total			\$ 6,078,083

* Asotin, Lewis River, and McDaniel are owned by parent company, Telephone Data Services (TDS). WAC 480-123-110(7) allows affiliated companies to file a single petition. UTC deployment obligations are required in each operating company's service area.

** Companies that elected eligibility criterion three, deployed broadband to the Commission's required number of locations since January 1, 2018. Additionally, they have certified that that have already met the FCC's total broadband buildout requirement.
