RE: Updated cover letter to include past application submission information.

To Whom It May Concern,

Sonic Telecom is resubmitting our application for Competitive Classification of Telecommunications. As requested, I have added our already issued UBI number 604 826 453 to the application and am resending.

Please know, on September 9, 2022 Sonic Telecom uploaded and separately submitted both a confidentially marked Balance Sheet file submission as well as the required redacted balance sheet version for our Washington State registration for Competitive Classification of Telecommunications application which is separate from this application resubmission.

Sonic Telecom / Sonic.net, LLC. is formally requesting and citing a WAC 480-07-160 protective order for our confidential company information and proprietary financial data. Sonic Telecom and/or Sonic.net, LLC (parent company for Sonic Telecom) is exempt from disclosure as it's a privately held company and our confidential, proprietary financial data is key to our competitive strategy.

Please let us know if you have any questions or need additional information.

We look forward to working with your group.

Sincerely,
David Schaefer
Director of Finance
