 COMMISSION

Attached please find Original Tariff No. 15, as well as supporting documentation for a general rate filing and price adjustment.

With this filing, we respectfully request the Commission approve a general rate increase to recover higher general operating costs and capital investment costs. We request this rate increase become effective May 1, 2023.

Basin Disposal of WA's last general rate filing was effective June 1, 2010.

If approved by the Commission, this filing will result in an increase of approximately \$710,000 or 30.49%. This increase impacts approximately 4,800 residential, 480 commercial, and 44 drop box customers.

Included in this filing is our non-regulated operation, as our regulated and non-regulated operations share one facility and certain management costs. To protect certain non-regulated proprietary information, we are submitting this filing as confidential, and are filing in accordance with WAC 480-07-160.

A rate increase notification letter will be mailed to all customers affected by these proposed changes no later than March 31, 2023.

A copy of this letter is being sent to the Chairman of the Walla Walla County Board of Commissioners.
