RE: UG-230803, Application to Amend Certificate of Public Convenience and Necessity

Dear Director Killip:

On September 29, 2023, Cascade Natural Gas (Cascade or Company) submitted an application of Certificate of Public Convenience and Necessity pursuant to RCW 80.28.190, which was docketed as UG-230803. The Company now files to replace Exhibit B, Maps and Legal Descriptions, which was included with the initial filing.

Exhibit B is herewith revised to correct the definition of the East Wenatchee Expansion Area. In the Company's initial filing, the final line in the description says, "thence N along the E line of sections 16 and 9 to the beginning." With this filing, Exhibit B is corrected to say, "thence N along the W line of sections 16 and 9 to the beginning."

The Company has been approached by a prospective customer seeking service to transport renewable natural gas from a planned biodigester facility. This facility will be sited in the East Wenatchee Expansion Area described in Exhibit B.

The Company requests that the Commission expedite this Application to allow the Company to provide service to the renewable natural gas facility.

The following files are electronic submitted as part of this filing:

- UG-230803-CNGC-Amend-Srv-Territory-CLtr-02-16-24.pdf
- UG-230803-CNGC-Exhibit-B-Maps-Legal-Descriptions-02-16-24.pdf

Please direct any questions regarding this filing to me at (208) 377-6015.

Sincerely,

*/s/ Lori Blattner*
