To Whom It May Concern,

I am writing to express my full support for the implementation of auto transportation services in Chelan, WA, specifically aimed at facilitating access to wineries and top destinations in the area. As the resort manager in Chelan, I have firsthand knowledge of the pressing need for reliable and safe transportation options for tourists and locals alike.

Chelan boasts a vibrant tourism industry, drawing visitors from far and wide to explore our renowned wineries and picturesque destinations. However, despite the allure of our region, there exists a notable gap in transportation infrastructure, particularly concerning access to wineries. Currently, there is a lack of reliable and safe transportation options, leaving visitors struggling to navigate the area efficiently and effectively.

One of the most significant challenges faced by visitors is the limited parking availability in town. With parking spaces at a premium, finding a suitable place to park becomes a major concern for tourists eager to explore the local wineries and attractions. By providing auto transportation services, we can alleviate this burden and offer a convenient alternative for travelers looking to experience all that Chelan has to offer.

As the resort manager, I can attest that safe transportation to wineries is consistently one of the most requested amenities by our guests. Time and again, visitors inquire about the availability of reliable transportation options to explore the local wine scene without the hassle of navigating unfamiliar roads or worrying about parking constraints. By addressing this need, we not only enhance the overall visitor experience but also contribute to the sustainable growth of our tourism industry.

Therefore, I wholeheartedly endorse the introduction of auto transportation services in Chelan, WA. Such services would not only fulfill a critical need within our community but also foster a more enjoyable and accessible experience for all who visit our picturesque region.

Sincerely,
Sarah Nunez, Resort Manager, Grandview on the Lake

Describe the need for the requested service:

This service will aid our quest to bring guests/large groups into our tasting room area securely and efficiently. As we look for any and all ways to increase traffic into our operation, having the trolley service gives guests another way to experience wine tasting without constraints. Helps make us a destination folks know they can get to without driving themselves. This is particularly true in the summer, when folks are looking for ways to get around.

Describe the need for the requested service:

There is a need for a shuttle service to transport visitors and locals alike around the region of the Lake Chelan Wine Valley. There are nearly 40 wineries and other event, activity venues, restaurants etc. that are within easy driving distance, but where parking is limited. Drinking and driving is also a concern, so a shuttle service would be ideal to move people around the valley where many/most come to wine taste in our AVA. There is no cab or Uber service in Chelan and transit doesn't go where needed.

If there is an existing company providing this service in the territory, please list the existing company's name (if applicable): **limited limo services which are space and cost prohibitive**
