| Note1: Permanent Service: Service is defined as no less than scheduled, every other week pickup, unless local government requires more frequent service or unless putrescibles are involved. Customer will be charged for service requested, even if fewer containers are serviced on a particular trip. No credit will be given for partially-filled containers.  Note 2: Permanent Service: If rent is shown, the rate for the first pickup and each additional pickup must be the same. If rent is not shown, it is to be included in the rate for the first pickup.  Accessorial charges assessed (lids, unlocking, unlatching, etc.)  (a) When a collector is required to disconnect/reconnect a customer owned compactor from a drop box or container prior to taking it out to be dumped and then reconnecting the compactor when the drop box or container is returned to the customers site, the following charge will apply: \$10.49 per load.  (b) When a collector is required to open, unlock or close a gate in order to pick up solid waste, the following charge will apply per pickup: \$1.76. |    |  |               |     |                     |     |                      |       |                       |     |                 |  |  |
