- 20 4. WAC 480-123-110(1)(d): The Company's broadband plan to provide, maintain, or enhance
21 broadband services in its service area is attached hereto as Exhibit 3.

22
23 ¹ Pursuant to agreement with Commission Staff, Exhibit 1 is limited to those affiliates having transactions
24 with the Company that are to be identified in Exhibit 2.]

25 ² Pursuant to agreement with the Commission Staff, Exhibit 2 is limited to transactions other than
26 employment compensation and benefits pursuant to employ benefit plans.

- 1 5. WAC 480-123-110(1)(f): A sworn statement by a Company officer certifying that the
2 Company complies with state and federal accounting, cost allocation, and cost adjustment
3 rules pertaining to incumbent local exchange carriers is attached as Exhibit 4.
- 4 6. WAC 480-123-110(1)(g): The number of residential local exchange access lines served by
5 the Company as of December 31, 2019, was 1,750. The number of residential local
6 exchange access lines served by the Company as of December 31, 2019, was 1,877. The
7 number of business local exchange access lines served by the Company as of December 31,
8 2020, was 444. The number of business local exchange access lines served by the Company
9 as of December 31, 2019, was 456. The number of broadband connections served by the
10 Company as of December 31, 2020, was 1,514. The number of broadband connections

AFFILIATED TRANSACTIONS

SCATTER CREEK, LTD. (Parent): Scatter Creek, Ltd (Parent) acts as a common paymaster for the Tenino Telephone Company (Company) and some of its affiliates. The Parent also provides billing and operational systems support for the Company. Certain shareholders holding, directly or indirectly, five percent or more of the stock of the Company are also employees of the Company and receive from the Company's employment compensation together with employment-associated benefits in accordance with benefit plans that are in place.

Scatter Creek InfoNet, Inc. (affiliate): Scatter Creek InfoNet, Inc. (SCIN) is an affiliate of the Company that is an internet service provider. SCIN purchases from the Company DSL service on a wholesale basis, Ethernet Transport Service, and Special Access Service. The pricing for these services is set in accordance with National Exchange Carrier Association (NECA) Tariff FCC No. 5. SCIN purchases local business access lines from the Company. These lines are used for customer service and dial-up Internet service. The rates charged to SCIN by the Company for these lines are set forth in the Company's Tariff W.D.P.U. NO. 1. The Company purchases from SCIN web hosting service, email delivery and internet access at rates equivalent to the rates SCIN charges to its similarly situated retail customers.

TENKAL Company (affiliate): TENKAL Company (TENKAL) provides long distance service to customers in the Company's service territory using the DBA of Scatter Creek Communications. TENKAL purchases local business access lines from the Company. These lines are used for customer service. The rates charged to TENKAL by the Company for these lines are set forth in the Company's Tariff W.D.P.U. NO. 1. The Company purchases long distance service from TENKAL at rates equivalent to those TENKAL charges to its similarly situated retail customers. BROADBAND PLAN

Pursuant to RCW 80.36.650(3)(a)(ii), a recipient of support from the state Universal Communications Services Program established by RCW 80.36.650 is to have adopted a plan to provide, enhance, or maintain broadband services in its service area. As set out in WAC 480-123-110(1)(d), the broadband plan is to include specific elements, but only to the extent applicable to that particular broadband plan. The broadband plan does not have to include all elements, but potential elements include the following: (1) a multi-year investment plan; (2) specific projects that are projected to provide or enhance broadband service at speeds required by the Commission or the Federal Communications Commission; (3) a plan for maintenance of broadband services in the provider's service area; (4) a description of how the provider will enhance broadband services in its service area; and (5) any other information that the Commission may request to assist in the Commission's review and analysis of the provider's broadband plan. Where there are specific projects, the project information is to include an estimated timeline, geographic location, number of locations passed, and upload and download speeds that are projected to be produced by the project.

Tenino Telephone Company ("Company") has constructed sufficient facilities to qualify for criterion three of WAC 480-123-110 and, as a result, has constructed substantial broadband infrastructure throughout much of its service territory. This means that the Company is seeking program support to allow it to continue to provide telecommunications services and broadband services at or above the levels that are provided today.

In addition, subject to the availability of adequate funding, including support from the Program, the Company is planning to engage in a broadband infrastructure construction program in 2022 and subsequent years.¹ The specific projects planned for 2022 are as follows:

¹ The Company's broadband plan may be affected by any number of factors. One such factor is the availability of materials and supplies. Plans are also subject to obtaining building or construction permits, in some cases rights-of-way, and other factors. The Company has little, if any, control over the permitting process. Nor can the Company be certain that rights-of-way will be available on reasonable terms and conditions. Other factors outside of the control of the Company may also affect the broadband plan. For example, epidemic, severe weather, accidents or earthquakes are items that may affect the timing for projects listed below in the broadband plan. If, for example, severe weather damages existing facilities, it may be necessary for the Company to refurbish or rebuild existing facilities rather than continue or engage in a project listed in the broadband plan. The foregoing list of factors that can affect the broadband plan is meant to be illustrative and is not exhaustive.

In addition, the Company plans to maintain its existing voice and broadband network during 2022. The Company's projected annual direct and indirect operational costs associated with its voice and broadband network, including costs of maintenance and repair (but excluding depreciation) of the Company's voice and broadband network, for 2022 is approximately

The infrastructure construction program for 2022 described above was adopted by the Company on June 1, 2021.
