State Of WASH.
UTIL. AND TRANSP.
COMMISSION

Dear Records,

Please place this email and its two attachments on the record in PSE IRP Docket No. UE-160918.

This email provides as an attachment a copy of the comments that I made at yesterday's IRP Advisory Group meeting in Bellevue. Those comments provide my finding that Energize Eastside is not needed now or any time soon. The comments provide the basis for my finding. The comments refer to a listing of 16 documents that I have placed on the record in PSE IRP Docket No. UE-160918 that includes the date when the document was filed with the WUTC and a brief description of what is in each document. That listing of documents that I placed on the record in UE-160918 is also attached to this email.

Richard Lauckhart
Energy Consultant
Davis, California

On behalf of a large number of citizens that are concerned about transmission matters in the greater Bellevue area.
