Subject: RE: US Moorings Project Area Field Change Request Form 1

Jen, Bob, Ryan,

FCR 1 for the US Moorings Project Area is approved. EPA appreciates that this will not delay the remedial design schedule.

Thanks,

Hunter Young

Subject: US Moorings Project Area Field Change Request Form 1

USMS0038348

Hunter –

Attached please find Field Change Request (FCR) Form 1 for the US Moorings Project Area Spring 2023 pre-design investigation. This FCR proposes delay of deployment of ultrasonic seepage meters due to the subcontractor not being available during the target March/April 2023 timeframe identified in the *Revised First Phase Pre-Design Investigation Data Summary Report and Second Phase Pre-Design Investigation Work Plan*. NW Natural proposes to deploy the seepage meters in March/April 2024. This delay will not impact the remedial design project schedule or achievement of the data quality objectives.

If you have any questions during your review, please contact Ryan Barth.
