## **2. GENERAL REGULATIONS**

### **2.1 UNDERTAKING OF THE COMPANY**

#### **2.1.3 LIABILITY (Cont'd)**

- E. The Company is not liable for any defacement of or damage to the premises of a customer resulting from the furnishing of any facilities by the Company on the premises or by the installation or removal when defacement or damage is not the result of negligence of the agents or employees of the Company.
- F. No license under patents (other than the limited license to use) is granted by the Company or shall be implied or arise by estoppel, with respect to any service offered under this Catalog. The Company will defend the customer against claims of patent infringement arising solely from the use by the customer of services offered under this Catalog and will indemnify such customer for any damages awarded based solely on such claims.
- G. The Company's failure to provide or maintain services under this Catalog shall be excused by labor difficulties, governmental orders, civil commotions, criminal actions taken against the Company, acts of God and other circumstances beyond the Company's reasonable control, subject to the credit Allowance for a Service Interruption as set forth in 2.4.3 following.
- H. Customer Service Guarantee

The Customer Service Guarantee is designed to grant customers a credit if the Company fails to keep a Guaranteed Appointment or Guaranteed Commitment. The Customer Service Guarantee is administered as set forth in 2.2.2 of the Exchange and Network Services Tariff.

#### **2.1.4 INSTALLATION AND TERMINATION OF SERVICES**

The services provided under this Catalog will include all facilities to that point where provision is made for termination of the Company's outside distribution network facilities at a suitable location at a customer designated premises. This Demarcation Point (DP) is the end of the Private Line Transport Services. Additional premises wiring on the customer's side of the DP will be the customer's responsibility.

## **5. SERVICES**

### **5.1 GENERAL**

Private Line Transport provides a transmission path between customer designated premises or customer designated premises and a Serving Wire Center. Company Centrex central office-like switches are considered to be customer designated premises for purposes of administering and providing Private Line Transport Services.

#### **5.1.1 SERVICE TYPES**

There are several types of services used to provide Private Line Transport. Each type has its own characteristics. All are subdivided by one or more of the following:

- Transmission specifications
- Bandwidth
- Speed (i.e., bit rate)

Customers can order a basic channel and select from a list of available transmission performance and channel interfaces those that they desire to meet specific communications requirements.

For purposes of ordering channels, each has been identified as a type of Private Line Transport. However, such identification is not intended to limit a customer's use of the channel nor to imply that the channel is limited to a particular use.

#### **A. Service Descriptions**

##### Low Speed Data

A channel for the transmission of low speed loop status signals of up to 150 baud and for the transmission of McCulloh type alarm signals

##### Voice Grade

A channel for the transmission of analog signals within an approximate bandwidth of 300-3000 Hz.

##### Local Area Data Service (LADS)

A channel suitable for baseband transmission of digital data signals between points within the same serving wire center area.

## **5. SERVICES**

### **5.2 SERVICE DESCRIPTIONS (Cont'd)**

#### **5.2.7 FOREIGN CENTRAL OFFICE SERVICE**

##### **A. Basic Description**

Foreign Central Office (FCO) Service provides dial tone from a customer's serving wire center to a remote wire center in the same exchange. This service is available to either residence or business customers.

##### **B. Terms and Conditions**

1. FCO Service is offered on individual lines and trunk lines.
2. FCO Service will obtain a line or trunk from the Exchange and Network Services Catalog. The Network Access Channel is also applicable.
3. FCO Service is not in accord with the normal plan of furnishing telephone service and the Company does not obligate itself to furnish such service, particularly where it involves undue expense or impairment of the service furnished to the general public.
4. Transport Mileage applies based on airline measurements from the wire center from which the customer actually is served to the serving wire center from which the customer would normally be served.
5. FCO will not be provided on the same circuit as Foreign Exchange (FX) Service.
6. Rates and charges for all Optional Features and Functions are as specified in the appropriate catalog.
7. Directory Listings
  - a. One directory listing will be provided for FCO Service in the wire center where the customer's dial tone is obtained.
  - b. Additional listings will be furnished at regular rates and charges as specified in the Exchange and Network Services Tariff, Section 5.
8. Message toll rates are applicable in connection with FCO Service when calls are placed to telephone numbers outside the local calling area of the dial tone wire center.

**NOTICE**

**THE INFORMATION CONTAINED IN THIS DOCUMENT IS SUBJECT TO CHANGE.**

## **5. SERVICES**

### **5.2 SERVICE DESCRIPTIONS**

#### **5.2.10 DIGITAL DATA SERVICE**

F.2. (Cont'd)

##### **b. Service Rearrangements**

Service rearrangements are changes to existing (installed) services which do not result in either a change in the minimum billing period requirements as set forth in 2.4.2, preceding, or a change in the physical location of the Channel Termination at a customer designated premises. The charge to the customer for service arrangement is dependent on whether the change is administrative only in nature or involves actual physical change to the service. Changes which result in the establishment of new minimum billing period obligations are treated as disconnects and new connects. Changes in the physical location of the Channel Termination are treated as moves and are described and charged for as set forth in 3.2.2.J., preceding.

Service rearrangements will be charged for as follows and the appropriate Service Provisioning charge will apply in addition:

- If the change involves the addition of another leg to an existing service, the nonrecurring charge for the Channel Termination will apply. The charge will apply only for the leg that is being added.
- If the change involves the addition of an optional feature or function which has a separate nonrecurring charge, that nonrecurring charge will apply.
- If the change involves the changing of the data transmission rate (e.g., a change from 2.4 to 9.6 kbit/s), it will be treated as a discontinuance of the existing service and the installation of a new service.
- If the change involves changing jurisdiction from interstate to intrastate on End-Link or Mid-Link services, all nonrecurring charges will apply. This change will be treated as a discontinuance of the existing service and the installation of a new service.
- For all other changes, including the addition of optional features and functions without separate nonrecurring charges, a charge equal to the Channel Termination nonrecurring charge associated with the facility, will apply.

If the change involves re-terminating an existing Digital Data Service Channel Termination onto a spare channel of a higher capacity service, only the Rollover nonrecurring charge will apply, as specified in 3.2.2.L., preceding.

## **5. SERVICES**

### **5.2 SERVICE DESCRIPTIONS**

#### **5.2.11 DS1 SERVICE (Cont'd)**

##### **G. Rate Regulations**

This section contains specific regulations governing the rates and charges for DS1 Service. There are two types of rates and charges. These are monthly rates and nonrecurring charges described as follows.

##### **1. Monthly Rates**

Monthly rates are flat rates that apply each month or fraction thereof that service is provided. These rates apply on a monthly basis. For billing purposes, each month is considered to have thirty days.

##### **2. Nonrecurring Charges**

Nonrecurring charges are onetime charges that apply for a specific work activity (i.e., installation or change to an existing service). The types of nonrecurring charges that apply for DS1 Service are:

- Channel Termination - Initial and Subsequent
- Transport Mileage
- Installation of Optional Features and Functions as specified in 3.2.2
- Service Rearrangements

Special construction charges, as defined in Qwest Corporation Tariff, F.C.C. No. 2, may also apply. Customers who order service under a Custom Arrangement, as defined in 3.2.3, preceding, may incur additional nonrecurring charges as identified in each individual case.

## **5. SERVICES**

### **5.2 SERVICE DESCRIPTIONS**

#### **5.2.11 DS1 SERVICE (Cont'd)**

##### **G. Rate Regulations**

This section contains specific regulations governing the rates and charges for DS1 Service. There are two types of rates and charges. These are monthly rates and nonrecurring charges described as follows.

##### **1. Monthly Rates**

Monthly rates are flat rates that apply each month or fraction thereof that service is provided. These rates apply on a monthly basis. For billing purposes, each month is considered to have thirty days.

## **5. SERVICES**

### **5.2 SERVICE DESCRIPTIONS**

#### **5.2.11 DS1 SERVICE**

##### **G. Rate Regulations (Cont'd)**

#### **3. Mileage Measurement**

Mileage Measurement will be as specified in 3.4, preceding, in addition to the following:

- The mileage to be used in determining the monthly rate for the Self-Healing Alternate Route Protection (SHARP) alternate route is calculated on the airline distance between the alternate wire centers utilized to provide SHARP on each end of the circuit. If the protection terminates in a Company wire center, the mileage to be used to determine the monthly rate for the alternate route is calculated on the airline distance between the alternate wire center providing SHARP and the Company wire center where the service terminates.

If the protection terminates in a Company wire center, a central office termination rate element will apply. This rate category provides for additional equipment placed in the Company wire center which causes the service to automatically detect a failure and switch to the alternate protection path.

If the protection terminates in a customer designated premises, standard rates, (i.e., Channel Termination and SHARP option) will apply.

#### **4. Fixed Period Rate Plans**

- a. A customer may subscribe to a one year through a seven year Fixed Period Rate Plan. If the customer terminates service prior to the expiration of the Fixed Period Rate Plan, termination charges specified in g. following will apply.
- b. For customers that subscribe to a Fixed Period Rate Plan, the monthly rates for the entire fixed period will be exempt from Company-initiated increases, at the rates in effect, in the tariff, for the fixed period on the service date the contract is signed by the customer and the Company.

If the rates decrease between the date the contract is signed and the date the service is installed, the customer will be billed the lower rate.
