

NREL Utility Green Pricing Program Survey (2019 data)

This document provides the questions and response fields that will be available through Survey Monkey from 7/8/2020 through 7/24/2020. We provide the questions and response fields in advance of the survey period to offer you time to prepare responses and familiarize yourself with the questions. All inputs should represent data from 01/01/2019-12/31/2019. We estimate that once data is gathered, the actual process of inputting into the survey will take less than five minutes.

We encourage you to use the online survey to complete this process. However, if you encounter any difficulty or prefer not to use , you may complete this form in Word and return it to Sara Dong at sara.dong@nrel.gov. The survey will have two types of inputs: text and numeric. You will always have the chance to add notes to explain answers if necessary. This form will use the following color scheme to indicate the acceptable response types for each question:

Entry Type	Description
Text	The user can enter any text to answer the question
Numeric	The user may only enter numbers to answer the question
