Note: Solutions Field Service Managers (FSM's) contact Connecting Companies with quality of service issues and recommendations.

Interoffice facilities. Blocking performance during average busy-hour for ninety-nine percent of trunk groups for any month must be less than one-half of one percent for intertoll and intertandem facilities and less than one percent for local and EAS interoffice trunk facilities. The blocking standard for E911 dedicated interoffice trunk facilities must be less than one percent during average busy-hour of the average busy season. Two consecutive months is the maximum that a single trunk group may be below the applicable standard.
